April 16, 2019 - PRESSADVANTAGE -

Financial emergencies often crop up without warning. It's for this reason that they are called emergencies. Even if an individual is normally stable, financially, a sudden unforeseen expense can often be a disastrous event. Big Car Title Loans San Diego understands this and knows that a financial emergency can be absolutely crippling, especially for people with poor or no credit, those who have been through a foreclosure, and those who have declared bankruptcy.

The company offers those in need a way to get cash quickly using their vehicle as collateral regardless of their financial history. Those who wish to explore this option may find the company's premises if they go here.

Big Car Title Loans offers its customers a way to get their hands on much needed cash as quickly as possible through their auto titles. "It may sound too good to be true, but we have helped many people get the cash they need with our San Diego auto title financial aid. The main thing we require is that you own your vehicle outright, with no liens on it," says the company. Since the vehicle serves as collateral to secure financial assistance, credit is a very small issue compared to other ways of obtaining financial aid. It is possible to get the required money within 24 hours or less. As Big Car Title Loans says, "There isn't any need to have a great credit score whatsoever to obtain financial assistance with an auto title in San Diego. We use your car title as collateral to secure the assistance, so credit is not a deciding factor."

In order to be approved for financial assistance with Big Car Title Loans, the customer must meet certain requirements. The client must be eighteen years of age or older, own the car that they intend to use as collateral, be in possession of a lien free car title, provide proof of income as well as insurance, and present a valid, government issued ID. Fortunately for clients, one of the few things not needed to receive financial aid from Big Car Title Loans is a good credit score. Provided the applicant supplies all the needed documents, obtaining cash is a quick and easy process with the company, which makes their service ideal for people facing an unforeseen financial crisis.

Customers are encouraged to pay back the money as soon as they can, especially given that Big Car Title Loans San Diego does not have any pre-payment penalties. Usually, the period of time people are allocated to pay back the cash is based on their individual needs. The maximum is 36 months, but the company's commitment to helping its clients as much as possible means that this is a flexible limit. People living on unemployment benefits can still get financial assistance as long as their income is greater than \$1200 per month. Employment isn't a requirement for financial aid; a steady income is, no matter its source.

To get in contact with Big Car Title Loans, go to their website or call their hotline. The website features an application form, and one of the company's friendly staff will get in touch with applicants to help them get their money as soon as possible. Within 24 hours of meeting the application criteria, customers can walk away with cash in their bank account, and their financial problems long forgotten. Receiving money via MoneyGram is also an option.

Big Car Title Loans San Diego has helped a number of people find their feet in a variety of different financial crises. "I thought trying to get financial assistance with an auto title in San Diego would prove to be difficult but I got really lucky. This was the first place I called, and everything sounded so good that I just took a leap of faith. Their service was great, and I'll be using them again," says one satisfied client.

Another customer says, "This was my first time getting this kind of monetary assistance, and Big Car Title Loans San Diego approved me for aid over \$2,000. The interest wasn't bad and their repayment terms are good too, after hearing stories about other places around here from friends. They gave me a year to repay what I borrowed, but I only needed a couple of months."
