

BULLDOG

Bulldog Heating & Cooling Brings Their Services To Vaughan, Ontario

April 19, 2019

April 19, 2019 - PRESSADVANTAGE -

Toronto, Ontario based Bulldog Heating & Cooling Vaughan would like to inform their customers of a sale on all Goodman air conditioners hosted by one of their clients, Martino. Until the 30th of April, all Goodman air conditioners will be sold at a 20% discount, starting at \$25.22 plus tax per month (including installation). Clients are urged to take advantage of Martino's giant pre-season air conditioner sale before it ends.

Goodman is one of the biggest names in cooling, heating and energy-efficient home comfort. The company lives up to its reputation with its energy-efficient technology, highly durable materials, and quality manufacturing. Those who are interested in purchasing a Goodman heating or cooling system at a discounted rate can find them at Martino. For more on Martino's deals and other offers, visit <https://bulldogheating.com/yjxu>.

The partnership between the two companies has given Bulldog the ability to expand their service area, enabling them to provide better customer service and technical support while giving Martino a reliable installation, maintenance, and repair service. Martino is one of the leading HVAC companies in Ontario and,

with over thirty years of professional experience with home comfort systems, they are an ideal partner for any endeavor, according to Bulldog Heating & Cooling.

Martino relies on Bulldog Heating & Cooling for all its related repair and installation requirements. Aside from Martino, Bulldog provides a 24 hour service all across Ontario to both homeowners and other businesses. Whether a client is looking for a free quote or emergency heating or cooling system repairs and installations, Bulldog's technicians are ready and willing to handle the situation. "Our fully licensed and insured technicians are waiting for your call," says Bulldog Heating & Cooling. They added that customers should, "Rely on our experts to advise you on the best heating and cooling options that fit your lifestyle and budget." For more information on the partnership and what it means for both companies and their clients, visit <https://bulldogheating.com/jora>.

Bulldog Heating & Cooling prides itself on knowing how to install and maintain all kinds of HVAC systems in Toronto. "We at Bulldog Heating & Cooling can provide HVAC installation service in Toronto, ON if you are replacing your system with a new one," affirms the company. "We cannot emphasize enough the importance of correct AC unit installations. Routine HVAC maintenance helps prevent expensive repairs and makes your HVAC unit energy efficient. In case you need an air conditioner replacement, we are also the best company to contact. If you're replacing your HVAC unit with a new one in Toronto, ON, we do installations as well. And, if the installation is not done right, a problem could arise that would later lead to more repairs and more expenses for you."

Many things can go wrong with heating and cooling systems, leading to malfunction and breakdowns that are both very difficult for an untrained individual to deal with. The company, however, has a number of technicians with years of experience in diagnosing units and providing HVAC repairs or tune ups. As Bulldog Heating & Cooling states, "When your home's heating and cooling systems start to show signs of an impending breakdown, don't wait for disaster to strike before taking action. It's a nearly impossible task for regular people to service the HVAC system on their own, as many things need to be considered and only a professional can handle it." With access to the best heating and cooling contractors in the business, Bulldog Heating and Cooling can provide its customers with the top class service they deserve.

Those looking for a reliable heating and cooling contractor in Toronto, Ontario need not feel overwhelmed by the prospect of finding a reliable contractor. Bulldog Heating & Cooling has the knowledge and experience required to install a new HVAC system quickly and correctly, and ensure that the client need not call another contractor to reinstall an improperly installed system.
