

Locbit Launches New Website

July 10, 2015

July 10, 2015 - PRESSADVANTAGE -

San Diego, CA, July 10, 2015: Locbit is pleased to announce the launch of their new webpage at www.locbit.com.

Locbit is an Internet of Things software company that is dedicated to saving energy costs, reducing risk due to system failures, and increasing operational efficiencies. These capabilities are driven by sophisticated software that easily connect sensors and devices to a software cloud, performs high volume analytics, and automates work flow.

Customers include owners of large buildings such as hotels and grocery stores, as well as manufactures of electronics and consumer devices that need rapid connection to the internet cloud.

Marija Dimitrova, Locbit Director of Marketing, said that "whether customer goals are to improve operations, solve risk management, or reduce energy, the new website will make it easy to find what they need. We built our webpage with our customers to give them the fastest access to the best information."

The webpage is also the access point to the Locbit Cloud Platform.

For more information about Locbit and its business automation products and services, please call 858-412-4199 or visit their new website at www.locbit.com.
