

Dependable Homebuyers Announces Solution For Flippers In Over Their Head

April 25, 2019

April 25, 2019 -

Fort Myers, FL - Dependable Homebuyers Fort Myers has announced that they have a solution for flippers in over their head. It is actually a common occurrence for flippers to purchase a house with the purpose of fixing it up and then selling it for a profit. However, they may realize later on that they don't have the expertise, the determination to push through, or the cash or time to pursue the project. The result is that they would just like to be rid of the house as soon as possible. The solution offered by Dependable Homebuyers is to buy the house mid-project. Those who want to know more about the company can visit <https://activerain.com/profile/dependablehomebuyersfortmyers>.

Evan Roberts, owner and founder of Dependable Homebuyers, says, "We are happy to announce that we can provide a way out for flippers who think they've gone in over their head. We will buy the house mid-project, in whatever state it is in. It could be stripped down to the studs, have faulty work, or simply be a messy jobsite. No problem. We can provide flippers a solution for them to liquidate the house and get out from under this nightmare."

In a previous press release, Dependable Homebuyers suggested that investors can find houses in Fort Myers, Florida, that they might be interested in. Evan Roberts had pointed out that there are a lot of real estate investment opportunities in Fort Myers. Nevertheless, some investors may have realized that they have gone in over their head when they invested in a house in Fort Myers. It is to these people that Dependable Homebuyers is offering its solution of buying their house in whatever state it is in.

The solution proposed by Dependable Homebuyers is not really surprising since it has established a reputation of being a buyer of homes from homeowners who, for any reason, would want to sell their home. In the same way, the company offers to buy homes as is, in whatever state they are in. This is a solution offered to homeowners who want to sell their home as quickly as possible, for some reason. They may be relocating to another city because they have found a better job there or they may have fallen into dark times and are no longer able to afford the monthly payments for the home and therefore they just want to get back the amount that they have invested.

Likewise, in the solution being offered to flippers who feel that they no longer want to pursue their project, for whatever reason, Dependable Homebuyers is willing to buy the house in whatever state it is in. They will inspect the home and then make an offer that they believe is fair. The payment will be in cash, so there is no need for a long-winded transaction, which is what the flippers would really want. They simply want to get back as much as possible of the amount they have already invested in the house flipping project so that they can move on, possibly to another project.

Evan Roberts explains, "We are not realtors; we are professional home buyers. You can by-pass the entire listing process and simply sell your home to us! If you have a burdensome property, give us a call and we can layout all your options. Even if we're not the good fit, we can point you in the right direction. We're local and love meeting in person!?"

People can rest assured that they are dealing with a fair company as evidenced by the testimonials from previous clients. For example, Lucinda H. says, "I was originally skeptical, until I spoke with Evan over the phone. I should have called sooner! They provided me the best option for selling my home and I couldn't be happier!?"

Dependable Homebuyers works differently from other real estate firms. After inspecting the home, they will make a fair cash offer for the house within 24 hours. They are ready to close whenever the owner decides to close.

Those who require more information regarding the buying process being offered by Dependable Homebuyers can visit their website or they can contact them over the phone or via email.
