

## **Elite Executive Services Announces Corporate Relocation Services For Clients Moving To Australia**

*April 25, 2019*

April 25, 2019 - PRESSADVANTAGE -

Elite Executive Services is pleased to announce that they will now be offering assistance to those looking to move to Australia. With their wide range of services, Elite aims to make the transition from one country or city to another as comfortable as possible for each of their clients. Moving across such distances and borders can be extremely difficult and requires months, or even years, of planning. The company strives to make the whole experience simpler and quicker for their clients to ensure that the transition goes smoothly.

Elite provides specialist services to both corporate and private clients. Each of the company's consultants are passionate and determined to deliver the best outcome possible in any given situation. Currently, the company offers its services in Australia, India, UK, Malaysia, South Africa, Hong Kong, Papua New Guinea, and New Zealand, and is constantly expanding as a result of demand and referral.

To help clients familiarise themselves with Australia or any other place they choose to move to, Elite offers orientation services, as some form of orientation is absolutely necessary when making such a move. Elite's orientation procedure includes contact with the client's consultant before their arrival to determine the most pertinent knowledge they require, an accompanied visit to the client's destination (which includes touring

residential areas, house inspections, a general outline of educational opportunities in the area, and so on), a 'welcome' document with information on the client's destination, and other services tailored to the needs of each client.

Finding a home in Australia is a relatively simple process with Elite's help. Before the client's arrival, Elite will contact their consultant to understand their requirements, priorities, and budget, then provide an itinerary of suitable properties, allow the client to visit shortlisted properties, help them negotiate rental terms and conditions, provide advice on renting, and more to make finding a new home a simple and straightforward endeavour. In addition to finding a suitable living space, Elite helps clients find the right school or nursery for their children alongside, related information on the education and child care systems available.

Elite's departure service provides all the assistance the client might need when they vacate a home. The service includes coordinating removals, organising a post-departure clean and any maintenance required, assistance in the disposal of unwanted items, assistance with selling cars, labelling boxes for shipment, and other assistance that may be useful when vacating a property.

The company has received a number of positive reviews from clients they have helped move from one city or country to another. Chantelle Pritchard says, 'I really appreciate the speed at which you were able to organise my tour, given the lack of notice of my arrival. Traci was extremely friendly, helpful, and resourceful. She listened to my needs and then crafted a schedule to suit. Our key focus area is on securing a school, and her subsequent follow up has been great. She is quick to respond and utilize her contacts. Hopefully, this will result in us getting into our first choice of school!'

Another client, Noel Sheedy, says, 'Thank you for finding me this great flat. I am really happy living here, and the more people I speak to, the more I realise that I was extremely lucky to get this place. Today, I am hoping to finally meet up with Cate, so thank you also for putting me in touch with her. You were invaluable. Thanks to the girls for finding me a nice comfortable place; I am very happy with it, and my sister-in-law and her husband who I was staying with can't believe the place I have got.'

For help with moving to Australia or any other country?or simply from one city to another?contact Kathy Nunn of Elite Execution Services.
