

Diaper Clutch with Changing Pad Promotion Now Over 3 Bees and Me Announced Today

July 14, 2015

July 14, 2015 - PRESSADVANTAGE -

The recent sale promotion by 3 Bees and Me for their diaper clutch with changing pad is now officially over. This was announced earlier today by the online-based baby products company. The promotion, which put the changing station clutch at a discounted price, was very successful as many took the opportunity to get this highly recommended product.

"We would like to tell everyone that our sale promotion is now over. We are really overwhelmed that we have gained a lot of new customers who have shared to us how much they love our changing station," says Holly James, 3 Bees and Me spokesperson. "Our diaper changing clutch is ideal for parents who do not like to bring big diaper bags out with them especially when running short errands."

The diaper clutch has been a favorite for expectant mothers. This may be one of the reasons why so many people participated in the promotion. The clutch has a black and white Chevron style design that makes it look classy. It is also not gender specific and can be used for both baby girls and baby boys. It is made of material that is very easy to clean, sanitize and maintain. In addition to this, it has several compartments that can easily fit diapers, baby clothes and wipes. In front, there is a zippered pocket for other valuables such as

money and keys. The clutch is small and compact. It also has a strap that can be attached to a baby stroller for convenience.

The changing pad which can be seen at <http://www.amazon.com/Bees-Me-Changing-Diaper-Clutch/dp/B00OOAM70S/> is wide enough to accommodate a growing baby. The pad is large, but does not occupy a lot of space when not in use because it can easily be folded. It has a unique wing design that will ensure the baby will not touch dirty surfaces. It is very easy for parents, especially moms on the go, to clean and sanitize.
