

Frisco Gains Outstanding Remodeling Contractor

April 25, 2019

April 25, 2019 - PRESSADVANTAGE -

TX based Dallas Custom Remodeling is pleased to announce that they have begun taking new clients in the Frisco area. The Frisco remodeling contractor is ready to welcome any and all customers who wish to retain their superior services.

Homeowners tend to postpone their house renovations, especially if they come across remodeling contractors who give them inflated or untenable price estimates. However they may also avoid fixing up their homes due to simpler reasons, such as an unwillingness to allow multiple strangers to walk through their property and work there for an extended period of time. Whatever the reason, Dallas Custom Remodeling understands that people have multiple reasons for not getting in touch with a contractor.

The company, however, takes pride in their own ability to deliver an outstanding service to all their client. Dallas Custom Remodeling offer the best, most innovative, and fastest service in the market, all while maintaining a fair price. Contracting jobs are carried out by their team of knowledgeable and skilled professionals who each boast years of experience. Their staff are trained in all aspects of home remodeling, and have passed rigorous testing courses to provide customers with the most competent service in the field.

After the initial consultation call, Dallas Custom Remodeling will schedule a visit with their inspection team.

The team will evaluate their client's property and determine a quote, free of charge, along with an estimated time for the completion for any renovations that need to be done on the property.

Furthermore, as Dallas Custom Remodeling believes in maintaining total transparency with their clients, they always ensure that property owners are fully aware of the extent of the renovations that are going to be made before they begin tackling any work on the property. While the time taken to complete any given renovation will vary depending on the complexity of the procedures that are needed, the company will do everything in their power to make the process as smooth as possible. Notably, the company is also careful to avoid rushing through a job too quickly since their foremost priority is the safety of both their employees and customers.

Despite being new to the Frisco area, the company is already an expert in the field, asserting that they are, "Fully licensed, bonded, and certified." This is part of what sets the Frisco remodeling contractor apart from their competitors.

The services offered by the Dallas Custom Remodeling company include roofing services (covering repair as well as replacement as a whole if needed), home flooring services (covering everything from removal of old flooring to installation of the new flooring, no matter the material), and top quality home renovations (covering an ample variety of options from kitchen renovations to building entire new rooms, or even entire home remodels). However, the company's services are not limited to renovations and remodeling, as the company also offers "Comprehensive Home Repair services," helping the Frisco community take care of any kind of repair they may require. This ranges from projects as small as a faulty window to more serious matters that may cause further structural damage to a house, such as damaged wall structures or floor coverings.

A representative of the Dallas Custom Remodeling company said that, "After doing this job for as many years as we have, we have carried out all kinds of different renovations and repairs, with some being more complicated than others. However, there has not been a single project we haven't been able to complete! We're certainly lucky to be able to count on a team of skilled professionals for whom no project is too big or too small to take on." He also added that, "At Dallas Custom Remodeling, we do everything within our power to create an accessible budget for every family."

Dallas Custom Remodeling offers a 24/7 service that showcases the extent of the company's desire to help the community. There is no time when the company is not available to assist their customers, making them an invaluable resource to keep in mind in the event of an emergency.

For further information on the company's services, or to schedule a visit, interested parties may contact Harold Tanner of Dallas Custom Remodeling. Customers may also visit the company's website or connect with them through their social media platforms.
