The Key Guys Offers Help With Lost Car Keys

April 29, 2019

MINNEAPOLIS, MN - April 29, 2019 -
The Key Guys in Minneapolis, Minnesota offers services to replace car keys when they are lost or become damaged. The company recently discussed the upcoming boating and fishing season and how customers sometimes lose their keys during these adventures.

Bryan Nystrom, owner of the company says, ?Fishing and boating season starts soon in Minnesota. Every year, we occassionally find ourselves at boat landings and marinas across the Twin Cities Metro area to replace keys that were dropped overboard accidentally.?

Nystrom states that the company recommends that anyone who enjoys boating and fishing take a moment to put keys in an inner pocket when getting onboard or finding a designated place to store keys to avoid these mishaps.

Nystrom continues, ?Of course, if it does happen, we want these customers to know that all they have to do is give us a call and we will come and help.?

Nystrom states that The Key Guys will come to any location in the area and make a new set of keys from scratch, using the vehicle?s VIN number as a guide. The company has been called on to replace lost car keys on many occasions and state that they aim to get to customers as quickly as possible.

?We know that waiting can be frustrating,? says Nystrom. ?If someone has been fishing then there is a good chance that they want to get home to take care of the fish that they have caught. They don?t want to wait for hours for someone to come and remake their keys for them.?

Nystrom says that they have technicians who are available to get to customers quickly. He adds that the company prides themselves on hiring only certified automotive locksmiths and having the friendliest and most professional technicians in the region.

The Key Guys work with a number of automotive dealerships and other businesses to replace keys as

needed and have a wide following of satisfied customers. Nystrom says that replacing a key can cost upwards of $200 or more at dealerships, while The Key Guys charge much less and get the job done much more quickly. Plus, he adds that they can come to customers anywhere in the area, which includes all of the places where their customers may be enjoying the water, and replace those keys instantly.

Those who have car keys that need to be replaced can visit the company online to learn more or contact them directly. Nystrom states that they always strive to provide a fast turnaround for their customers to get them back on the road quickly. He adds that even keys that have been lost at the bottom of the lake are no problem as the company can simply make a new set, even for newer vehicles that use technologically advanced key systems.

The Key Guys was founded in 1988 and has been providing key services to those in the area since. Nystrom says that the company has decades of experience which helps them to better help their customers. He adds that anyone in the Minneapolis area can contact them for fast and efficient key replacement at prices that are much lower than dealerships.

Nystrom states that the process of creating a new key takes about an hour. The company has vehicles that are ready to dispatch to any location in the area to provide new keys for their customers. He adds that those who lose their keys while fishing can simply enjoy reeling in more fish while they are waiting on their replacement keys to be made.

Those who are interested in learning more about key replacement services can contact The Key Guys through their website or directly by phone. The company states that they are available around the clock with experienced technicians who will dispatch to any location in the area quickly. The company?s website offers more information on their services as well as a list of the vehicles that they service.
