

Scotland Static Caravan Park Introduces Online Holiday Bookings

April 29, 2019

April 29, 2019 - PRESSADVANTAGE -

Scotland based Tayport Links Caravan Park recently upgraded their website and now offers online bookings for their customers. Located in a fishing village near sandy beaches, it is perfect for a quaint vacation retreat. The company is locally based and family owned, with relaxing scenery for anyone who wishes to go on holiday there. In addition, they offer trails for walking, sailing, shopping, and even dolphin-spotting.

With, 29 acres of parkland overlooking the stunning Fife Coast in Scotland to the east and rolling countryside to the west, the company says that they offer over a hundred pitches for people to rent and buy, making sure there is no shortage of vacation spots. In addition, as they are only ten minutes away from a nature reserve, the surrounding area is brimming with wildlife and exotic sights. Those with pets such as dogs will be happy to hear that there are multiple locations to take them for walks.

The park is known as a haven for golfers due to its location amid 30 different golf courses, from Scotsraig to Drumoig and even St. Andrews. Alongside the golf courses, there is also a nearby British Golf Museum for those interested in history. Other possible activities include traveling on the Fife Coastal Path or Fife's Millenium Cycle Way. Not only does this offer pleasant experiences and an afternoon of fun, but the exercise

will also improve a visitor's health. For those looking for more extreme thrills, there is a possibility of skydiving and learning how to fly a plane.

Interested parties can purchase both new and second-hand static holiday homes, with many of them offering a view of the sea. There are static caravans that can accommodate up to six people for shorter breaks with complimentary wifi provided. The company notes that it is often used for 'short breaks, family holidays, long-term holiday lets or business, and offers all the essential facilities you need to make your Scottish caravan experience relaxing and enjoyable.' This option is often chosen for shorter stays and is now easier than ever to set up with online bookings.

Holiday caravans for sale can be found on the website sales page. Those who do not see a caravan that they feel the instant click with may call the company to check if there are more options available. Currently, the first option is called the Stunning Seafront Pitch, 2019 Victory Westpark, and sells for 54,950 pounds. Not only does it come with a breathtaking view of the sea, but features stylistic choices to appease most people. It boasts two bedrooms and has its furniture arranged to maximize the stunning view that can be seen from the balcony. Aside from this, it also has a built-in Bluetooth capable sound system. People can also visit the Tayport Links Caravan Park to find out more information from its friendly staff members.

The company currently enjoys a five-star rating on TripAdvisor with 71 reviews. Derek W., who visited in April of this year, states, 'Would highly recommend this park. The caravans are excellent, very spacious and spotlessly clean. An ideal base with easy access to the beach and forest walks. Close to St. Andrews and Dundee City Centre. Lots of 'extras' included in the price, such as towels, beverages, etc. Douglas and the team are very welcoming and helpful. This was our sixth year of visiting the park, and we love it.'

Lisa S. states, 'What can I say, just perfect! From the modern and immaculate accommodation to the sea view, it was all just superb. Absolutely everything had been thought of in the Sea View Lodge we hired to make it a completely relaxing break. Books, games, and DVDs were provided together with the lovely touch of a welcome card, chocolates, and a wee surprise treat in the fridge. Very much appreciated, thank you!'

Those interested in purchasing a home here or booking a stay should visit the website, contact Douglas Baillie of Tayport Links Static Caravan Holiday Park, or look up the company's social media platforms to find out more information. In addition, trips can also be planned for those that want a firsthand experience of what each home entails when it is purchased.
