

Geopathic Stress And EMF Radiation: Silent Killers eBook Debut by Karen Milesen

July 20, 2015

July 20, 2015 - PRESSADVANTAGE -

Karen Milesen has recently released her book as a new eBook through her Energetics International, Inc. company. The book, *Our Energetic Evolution in Healing: Free Yourself from the Unseen Forces that Can Make You Sick*, which is available in hard cover from Amazon, describes her personal story and that of her deceased husband. The book explains that electromagnetic frequency (EMF) radiation and geographic stress can contribute to the creation of what is known as a 'sick house'. Geographic stress is a natural form of radiation that is released from the earth into our homes and buildings, whereas EMF is the radiation released by electrical appliances in the home. She hopes to raise awareness on this important issue.

In the first part of her book, Ms. Milesen describes how her husband battled cancer until he died. She also describes her personal health issues. These two elements encouraged her to find the cause of their illnesses and a solution. The second part of the book hopes to empower people to take charge of their own health. She illustrates a range of natural healing systems and testing methods. In the final part, further details are provided on what EMF radiation and geographic stress is, where it comes from, signs and symptoms and its neutralization, all based on Ms. Milesen's personal research.

Her book helps people to identify whether or not they are living in a 'Sick House'. Ms. Mileson explains: "I learned how to go from sometimes needing a wheelchair to the ski slopes." She aims to assist people to turn their own sick house into a healthy house. Ms. Mileson continues to look into ways to use energetic solutions in order to heal not just homes and lives, but the planet as a whole as well. She stated: "I eventually learned that my sometimes very painful experiences were also a gift to me. Part of that gift is to be able to turn these experiences into something useful - my gift to you - so that you can learn from my experiences."

Ms. Mileson formed Energetics International, Inc. some 15 years ago. She had started her work in the 1970s and the company currently carries it on. The business is based near Aspen, CO, allowing Ms. Mileson, now healthy and in her 70s, to continue her work while also enjoying her passion of skiing.
