Las Vegas Homeopathic Doctor Welcomes Earth Day By Celebrating Natural Healing

May 09, 2019

May 09, 2019 -
Dr. Terry Pfau, a homeopathic specialist at the Las Vegas, Nevada based Renaissance Health Centre welcomed this year's Earth Day by celebrating the connection between natural healing remedies and the human spirit. On the eve of 2019's Earth Day, Dr. Pfau spoke about the importance of natural medicine throughout humanity's history as one of the most comprehensive and effective approaches in the treatment of most chronic illnesses.

The homeopathy specialist doctor said that, "On this significant day, it is important to seek out some of the natural healing alternatives that the Earth has to offer?some of which humanity has been using for the longest time, yet has been overlooked recently. The Earth offers us many different natural alternatives, yet some people choose to take medicines with multiple side effects. I believe the human body is deeply linked to natural remedies and, given such connections, only these could fully heal someone's spirit without any side effects."

Homeopathy is only one of many different health care services that the Renaissance Health Centre offers to the Las Vegas community. The health care facility is well known within the area for its acupuncture services.

Dr. Terry Pfau is a specialist with more than 30 years of experience in the alternative medicine fields. Throughout his career, Dr. Pfau has received training from some of the best physicians in the country, which has helped him earn fame and recognition as one of the best homeopathy specialists in the Las Vegas area. However, he believes that the most enjoyable, as well as the most important, part of his job is to help the people in need.

"While I was in medical school, it was my 5-year-old daughter?s experience with psoriasis that sparked my interest in Alternative Medicine,? said the doctor. ?In an attempt to help her, she was taken to several dermatologists who only prescribed stronger and stronger topical steroids. Although the medication gave temporary relief, she could not be left on them indefinitely. On taking her off the medications, the psoriasis would come back even worse. Out of desperation, she was taken to a physician in Kansas City who practiced

homeopathy. Almost immediately, she began to see improvement and, within a month, the skin lesion had cleared."

Since then, Dr. Pfau has committed himself to helping people in need through the use of alternative medicine. To meet this goal, the homeopathy specialist has pursued studies in different fields of alternative medicine, such as chelation therapy, nutrition, osteopathic manipulation, bio-identical hormone therapy, and prolotherapy. He stated, "Homeopathy is not a panacea. I have learned to incorporate other therapeutic modalities, such as acupuncture and nutrition to assist in the healing process."

Another one of Dr. Pfau's specialties is acupuncture, which he also uses to complement the natural medicine treatments given to a patient. In the community, Dr. Pfau is known for offering one of the best Las Vegas Acupuncture services, though the health centre advises that acupuncture only treats a certain set of symptoms. For complete recovery, the facility offers a wide array of treatments and modalities to help their patients improve and maintain optimal health.

The Renaissance Health Centre uses their website to furnish the community with a collection of resources regarding the services that they provide. The health care centre also has a blog that is updated regularly with content relevant to the facility?s treatments and procedures.

Patients often express their gratitude towards the Renaissance Health Centre?s services, and Dr. Pfau's treatments. A patient who was recently treated by Dr. Pfau said, "The staff at the Renaissance Health Centre is excellent. They are professional and cordial, always greeting their patients with a smile. I am getting treatment for my thyroid, and Dr. Pfau not only listens to how I feel, he cares about the health of my entire body. He has recommended other treatments for a total body balance and healing. It is the best experience I've ever had with alternative medicine."

Those looking for a homeopathic doctor Las Vegas with years of experience and vast knowledge in the many fields of alternative medicine may contact Dr. Terry Pfau of the Renaissance Health Centre, or visit their website to learn more.
