

Cosmetic Dental Clinic In West Los Angeles Showcases Patients? Beautiful Smiles

May 10, 2019

May 10, 2019 -

Dr. Ilona Casellini, DMD, of Swiss Quality Smile is pleased to reveal a showcase of their patients? smiles, showing how much improvement their patients have made. ?Making beautiful smiles is what we do best,? said Dr. Casellini, who continued, ?Everyone deserves to have the brightest smile and we take pride in helping them get the healthy, gorgeous smile they want.?

Swiss Quality Smile is a renowned cosmetic dental clinic in West Los Angeles, offering Family Dentistry along with some of the latest advances in comprehensive dentistry. Dr. Casellini herself is a 4th generation dentist, learning from cumulative experience over generations dating back to 1910. More importantly, she and her team make it a point to get to know every patient, providing the highest level of patient care and dentistry in a relaxing and comfortable environment. Taking just pride in their work, Swiss Quality Smile now displays their patients? smiles on their Facebook page to show just how clean, bright, and beautiful they have become.

Many Americans are scared of going to the dentist, with more than 75% of American adults saying they consciously fear it. Of course, this can then lead to children picking up on that fear. However, when it comes

to Swiss Quality Smile, even customers who have previously not looked forward to appointments with their dentist are now able to enjoy visiting Dr. Casellini.

A former patient, Keith, said in his 5-star review, ?It?s hard to imagine that I can sit here and say that I really enjoy my visits to the dentist. I had developed a pretty serious phobia about going to the dentist. Dr. Casellini and her staff take magnificent care of my wife and myself. They are extremely sensitive to ensure that I?m in no discomfort. They do fantastic work and are an incredibly fun group to joke around with during the visit. If you are looking for the best possible care and experience, this is the place.?

Their own fear of going to the dentist may be one of the reasons that some parents and caregivers may not be ensuring that the children in their care establish and encourage good dental habits such as brushing and flossing. Having a team of friendly and helpful staff to encourage the development of good habits and back up parents is always useful to help keep those smiles bright. ?We know how important teeth are to overall health and confidence and urge every parent and caregiver to help make sure their children follow good oral hygiene every day,? said Dr. Casellini. The clinic is a leading family dentist in West Los Angeles, and their recent advisory for preventative oral health was even featured on Talk1170 Radio?s website.

For any family member, Swiss Quality Smile will help make them as relaxed and comfortable as possible?taking away the fear associated with venturing into the dentist?s chair. E.G., a verified patient said in their 5-Star review, ?Dr. Casellini is easy going and warm. She, along with her lovely staff, creates an office environment that is inviting to those who like me shy away from the dentist. She is receptive to hearing and understanding any nerves or anxieties you may have and takes the time to answer questions and reassure you. I just had a veneer done; for me it was emotional but knowing that I was in the hands of someone who cares about my teeth as much as I do makes all the difference!?

Those interested in making an appointment with the clinic can call Swiss Quality Smile directly from their phone or computer. The clinic offers many services, including Crowns and Bridges, Porcelain Veneers, Tooth Colored Restorations, Zoom! ® Teeth Whitening, Swiss Quality Dentures, Routine Hygiene and Periodontics, as well as being one of the best Invisalign orthodontists in West Los Angeles according to a recent RFD-TVE feature. In the feature, Dr. Casellini says, ?Many patients have been helped in our office with Invisalign. We ensure that we are always caught up on all of the latest technology in the dental world and we truly believe these to be the best way to straighten crooked teeth in a majority of our patients.?

Another patient backs up the care and attention taken by the team. Mattea C. said, ?Just recently started going to Dr. Casellini and I am so happy with the treatment. The entire staff is so sweet! They have a laid back yet professional attitude to their office that I really like. Dr. Casellini has helped me with fillings, a crown and cleanings. The dentist isn't always fun, but at least here you're in good company and competent hands.?

Those who want to book an appointment, download directions, or find more about the many services Swiss Quality Smile provides can do so directly from their website. Those interested in seeing the beautiful smiles showcased can connect with them through their official social media accounts on Facebook, Twitter, Instagram, and YouTube.
