May 09, 2019 - PRESSADVANTAGE -

Horizon Ridge Window Tinting offers an expanded level of service to car owners, home owners and commercial businesses throughout the Greater Las Vegas Valley. The business has been tinting for more than a decade.

Las Vegas, NV: Horizon Ridge Window Tinting is pleased to announce that the window tinting Las Vegas based firm has more than ten years in business. The company offers quality window tinting services for homes, businesses and automobiles throughout Clark County. The firm offers several advantages to choosing their experienced professionals and quality products. Free quotes are offered for the provision of any service. Customers are assured of fair, friendly and affordable professional services.

According to owner, speaking to an interviewer, "We are available for every customer who is looking for an affordable and reliable window tinting company to take care of the glass of cars, businesses and homes. We guarantee the best deal in town and 100 percent satisfaction. We want to be the type of quality service which you would recommend your friends and family. We never force you to buy, talk above you or belittle you. Our prices are affordable and you don't have to feel bad for wanting the top quality work."

The owner also stated, "There are many benefits to having automobile windows tinted and the idea is growing in popularity. The tinting of windows has an aesthetic application, but also has additional benefits. Some of the more obvious include privacy, comfortable interior temperatures and maintaining the investment in the vehicle. Tinted windows assist with fuel mileage and can prevent the shattering of glass windows in the event of an accident. Blocking harmful UV rays helps to avoid skin cancer."

Their top foreman stated, "Residential application of tinting to the windows will help to reduce energy costs from operating the air conditioning system. Commercial window tinting saves on energy costs and adds aesthetic appeal to the building. The aspect of additional privacy which tinting affords is another benefits which customers find attractive. The cost of the tinting process may be offset in part or completely by savings on energy usage."
