Nourish Beaute Supports St. Jude Children's Hospital Through Hair Loss Products

July 23, 2015

July 23, 2015 -

Nourish Beaute, a health and beauty company specializing in hair loss products, has ramped up it's efforts to support St. Jude Children's Hospital. Customers are now able to purchase their VITAMINS Hair Loss Shampoo for just $1 in exchange for an honest review and know that every dollar collected will be donated directly to St Jude Children's Hospital. To be eligible for the offer, customers must join the VIP Review Club on the Nourish Beaute website.

Cynthia Ferrara from Nourish Beaute said: "Our new promotion ensures everybody wins. Our customers are able to receive our NOURISH Hair Loss Vitamins and other products for only $1, we receive honest reviews on Amazon to help us launch our newest products, and seriously ill children can continue to get the top quality care they need for free through the hospital. The promotion will run for a limited time only and we encourage everyone to sign up to our VIP Review Club to take advantage of it."

To start, the promotion will be available on two of Nourish Beaute's popular products, VITAMINS Biotin Hair Loss Shampoo and NOURISH Hair Loss Vitamins with Biotin. VITAMINS Shampoo is designed to stimulate thick and healthy hair growth and has been proven in clinical trials to be beneficial on alopecia. This product

has been available on Amazon for some time now, where it has received many positive reviews. "I have been using it for a couple of months now daily,? says Shanna1977, ?and I can see little hairs pushing their way out and GROWING! And the manageability and softness and shine continues with each wash.?

The second product available for $1 through the VIP Review Club is Nourish Vitamins for Hair Growth. These are supplements containing biotin plus 23 additional vitamins, amino acids and herbs that help to encourage thicker hair. This has also been very positively reviewed. " These pills have really helped take a good turn for my hair. About a week later, my hair started to look so much healthier and I thank all the nutritious vitamins in the pills. And about two to three weeks later my hair started to lessen on the amount that was falling out and about a month later, I saw great hair growth and basically all my hair stopped falling out. This is definitely a game changer when it comes to hair!? says Eden.

St. Jude Children's Hospital is a research hospital that treats children with cancer and other life threatening diseases free of charge. The money raised through the promotion will help to support the treatment they offer, as well as their research into further diseases and illnesses.
