MyLEDLightingGuide Offers High Efficient 180 lm/w LED UFO LED High Bay Fixtures, from 100W to 240W, Designed to Replace 400W to 1000W HID

May 16, 2019

May 16, 2019 -
Nashua, NH, May 15, 2019: MyLEDLightingGuide is proud to announce its new family of High Efficiency LED UFO High Bays at 180 lumens/watt.

?We now offer 3 new LED UFO High Bay Fixtures that are powerful and extremely efficient,? says Dwayne Kula, president of MyLEDLightingGuide.com. "Our models range from 100 watts to 240 watts, producing from 18,000 lumens to 40,800 lumens that is also ETL Listed and backed with a 5 year warranty."

These LED Fixtures are stylish and so simple to install. It's as simple as removing the existing fixture and then installing the new LED Fixture in the facility. Reducing cost of maintenance goes hand in hand with reducing cost of operation with these LED UFO Fixtures. They are built and designed to last a very long time, Kula says.

Guiding consumers towards more energy efficient high quality products is the main goal at MyLEDLightingGuide, along with pre and post sales support. It is achieved by providing the consumer a

superior product when it comes to LED lighting solutions. With the new ultra-efficient LED High Bay Fixtures, the company says they are able to save more energy and create quicker pay backs for the customer.

About MyLEDLightingGuide

It is the primary goal at MyLEDLightingGuide.com to help commercial customers save energy and money by using safe, efficient LED lighting for their facilities. Their goal is to educate the customer with real information about LED Lighting and show them how to convert from their older style lights over to LED. Visit their website for more information on our LED UFO Fixtures.
