Gordon Law, P.C. - Queens Personal Injury Lawyer Strives To Provide The Best Representation For People Injured In Car and Auto Accidents

May 21, 2019

May 21, 2019 - PRESSADVANTAGE -

The Gordon Law, P.C. - Queens Personal Injury Lawyer division is pleased to invite all those who are in need of an attorney who specializes in injury cases, to book a free initial consultation with the law firm.

The free consultation that the firm offers allows them to determine how much compensation a client may be due following an injury, such as the kind sustained in a car accident, auto accident, motorcycle or truck accident. One of attorneys describing the services says, "With thousands of accidents occurring on Queens roads every year, car crashes are a reality of life for many families and individuals. The car accident lawyers at Gordon Law P.C. - Queens Personal Injury Lawyer division have the knowledge, experience, and resources necessary to effectively pursue any claims. We'll look after our client's interests, whether their case involves a soft tissue injury, catastrophic injury, or even a tragic loss of life."

To meet this goal, ensuring that each client gets the representation they desperately need regardless of their economic situation, the Gordon Law P.C. - Queens Personal Injury division only collects attorney's fees as a percentage of any verdict or settlement that they are successfully able to secure. The firm urges clients to

consult an attorney instead of attempting to navigate the legal system alone. They point out that, "When you consider that the right lawyer can make the difference between securing the compensation you need and walking away empty-handed, you can't afford not to having legal help on your side."

The New York Lawyers Team maintains a website that serves as a valuable resource for any client who wishes to seek legal aid. For instance, one section of the website outlines some of the best steps to take after suffering a car accident. The firm states that the single most important thing is to get immediate medical treatment, followed by documenting all of the injuries sustained?including any damage caused to any material possessions involved in the accident. More information can be found at the following link: <https://www.nylawyersteam.com/personal-injury-attorney/locations/queens/practice-areas/car-and-auto-accidents-lawyer>.

The firm also touches upon some of the topics that are of common concern among victims caught in accidents, such as the amount of compensation that they are entitled to receive after the accident in question. The attorneys state that, while the compensation depends on the scope of one's losses, many accident victims are surprised to learn just how much they have lost as a result of their collision-related injuries. The organization discourages contacting any insurance company before talking to a lawyer, especially the negligent driver?s insurance company, as they will always attempt to lessen the compensation offered, either trying to disprove or to understate the losses incurred as a result of the accident.

While the website is by no means a comprehensive legal resource that will enable an individual to tackle their case alone, it can help them get a better idea of how to move forward responsibly. An attorney speaking for the firm said, "Often, clients end up being under-compensated just because they didn't know what to do after their accident. We have seen some terrible cases where a person ends up walking away empty-handed from an accident that cost them a vast amount of money and even changed their lives forever. We offer our advice for free because the very least we can do is to inform the Queens community of their options. If they decide to come to us once they're well informed, then we will do everything within our power to look after their interests."

A former client shared their experience with the firm in a review, saying, "My son and I were in a horrific car accident in Queens that turned our life upside down. I was out of work, hospitalized, and bills were coming in. When I contacted the Gordon Law P.C. - Queens Personal Injury Lawyer division, their team stepped in and handled everything professionally. They were always in touch, always had all the answers to any questions, and were respectful and caring. The organization's lawyer team helped me receive compensation when I didn't even know it was possible. I am truly grateful towards them, and can't thank them enough."

Interested parties may also contact their Queens personal injury attorneys at the New York Lawyers Team website.
