MyLEDLightingGuide offers HID Replacement Retrofit Kits for Recessed Can Applications

May 20, 2019

May 20, 2019 -
Nashua, NH May 20, 2019: MyLEDLightingGuide is proud to announce its new family of High Power Recessed Can retrofit kits designed to replace up to 400W Metal Halide.

?We now offer 3 new Recessed Can Retrofit Kits that are powerful and can easily be installed in 6" and 8" recessed can openings,? says Dwayne Kula, president of MyLEDLightingGuide.com. "We have 3 models, 45W, 75W and 100W that are designed to replace 150W, 250W and 400W Metal Halide. These models come with a custom sliding arm that allows for easy installation and setting of retrofit head height. Installation is simple and quick."

These LED Recessed Can Retrofit Kits and so simple to install. It's as simple as removing your existing bulb and ballast and then installing the new LED Components inside the existing can fixture. Reducing cost of maintenance goes hand in hand with reducing cost of operation with these LED Retrofit Kits. They are built and designed to last a very long time.

Guiding consumers towards more energy efficient high quality products is the main goal at

MyLEDLightingGuide, along with pre and post sales support. It is achieved by providing the consumer a superior product when it comes to LED lighting solutions. With the new ultra-efficient LED High Bay Fixtures, the company is able to save more energy and create quicker pay backs for the customer.

About the Company

It is the primary goal at MyLEDLightingGuide.com to help the commercial customers save energy and money by using safe, efficient LED lighting for their facilities. Their goal is to educate the customer with real information about LED Lighting and show them how to convert from their older style lights over to LED. Those interested should visit the website for more information on their LED UFO Fixtures.
