

Encinitas Chiropractor Celebrates First Year Anniversary

May 22, 2019

May 22, 2019 - PRESSADVANTAGE -

The Encinitas, California based K2 Health Center is pleased to invite the general public to attend their first-year anniversary party, to be held at 5 PM on June 6th 2019, at K2 Health Center, 317 N. El Camino Real Suite 110 Encinitas, CA 92024.

Dr. Kupper and Dr. Keener, in-house chiropractors at K2 Health Center highlight that their anniversary party is free and open to the public. "Come and join us for an afternoon of fun and thanksgiving. There will be free food, drinks, spirits (cocktail drinks), and an exciting raffle for gifts which include great discounts from some of our offered services," affirms Dr. Kupper. He also states that the anniversary party is their way of thanking the community for their unwavering support over the past year.

As noted on the company's website, K2 Health Center is a chiropractic clinic that specializes in treating a number of neuro-musculoskeletal disorders. Dr. Kupper and Dr. Keener also state that they utilize a modern approach towards finding the root cause of their patient's health issues, devising a unique plan each time to get them back to optimal health. They also take pride in having an excellent bedside manner, providing individualized care, utilizing cutting-edge technology, and ensuring quantifiable results.

“Our mission is to help the local communities of Encinitas, Leucadia, Carlsbad, Cardiff, Solana Beach, Del Mar, and the surrounding areas by providing the most advanced chiropractic treatment, massage, low-level laser therapy, nutrition, exercise therapy, and diagnostic services,” says Dr. Keener. He explains that their services are available for people of all ages because they have experience in dealing with pediatric patients and the elderly. In fact, many of the clinic’s patients have responded well through their personalized health programs and treatments. He further explains that K2 Health Center provides an effective and non-invasive solution that can help alleviate symptoms of several health conditions, including neck pain, headaches, migraine, low back pain, neuropathy, TMJ, and more.

Meanwhile, Dr. Kupper states that the clinic primarily specializes in upper cervical chiropractic treatment, which utilizes sound wave technology to re-align the upper cervical spine to relieve pain, normalize neurology, improve blood/CSF flow, and treat a variety of conditions. They also practice a chiropractic technique called Atlas Orthogonal (orthogonal is from the Greek for “right-angled”) which is a very gentle and extremely precise procedure to realign the Atlas and the rest of the body’s system so they can move harmoniously. He says that they use upper cervical chiropractic to restore the vital connection between the brain and the body resulting in an increased ability to heal. “Our 3D digital x-rays enable us to see a clear image of the upper cervical spine and the computer analysis of these x-rays provides the most accurate assessment of the spinal misalignment.”

He continues, “The information derived from the x-rays will then be mathematically calibrated into the Atlas Orthogonal instrument. This equipment will help us to come up with a calculated analysis based on precise mathematical coordinates, to within 0.25 degrees of accuracy, to ensure that all adjustments will be done correctly and according to the specific misalignment.” Upper cervical chiropractic has proven to be extremely effective in providing longer-lasting corrections when compared to traditional chiropractic treatments, as precise adjustments tend to hold much better than general adjustments.

K2 Health Center is considered the leading Encinitas Chiropractor, as illustrated by a number of positive reviews and recommendations received online. In fact, they have a perfect rating of 5.0 on both the Yelp and Google review platforms.

Cathy Homuth said, “I’ve had a great experience at K2 Health Center. Dr. Keener and Dr. Kupper have taught me the importance of proper alignment for overall health and well-being. They are very professional, knowledgeable, and personable. They have unique treatment methods using sound waves, lasers and more. I highly recommend K2 Health Center.”

Another satisfied patient, Amy Herrera, said, “My 10-year-old son and I had both been suffering from daily chronic pain, and never experienced lasting relief from regular chiropractic care. With Dr. Keener’s help, our

lives are dramatically improved, with almost no issues remaining and just occasional visits for ?tune-ups? now. It has been miraculous for us. What is also important to me is that Dr. Keener is someone who deeply and genuinely cares about his patients. His genuine kindness and passion for helping people are very clear.?

More information can be found on their website at <http://k2healthcenter.com/>. Aside from upper cervical chiropractic treatment, K2 Health Center also provides other services, including low-level laser therapy, sports and therapeutic massage, concussion/CTE therapy, TMJ pain therapy, and surgery avoidance consultation. Interested parties may also connect with Dr. Keener and Dr. Kupper through their official Facebook page to learn more about their latest news and updates.
