

SEO Company Announces A New Solution For Bringing Quality Visitors To Websites

July 27, 2015

July 27, 2015 - PRESSADVANTAGE -

Atco, New Jersey company On Time Website Traffic, has announced a service that is guaranteed to bring website owners more organic traffic. Organic traffic refers to visitors that come to a site via search engine results, and while this is a crucial step in generating online business, recent studies show that it's a step most business owners are missing.

Studies have shown that visitors who land on a website due to search engine queries offer the best quality of results. These visitors come to a site based on specific search criteria that they input, looking for a particular product or service.

In order to take advantage of the benefits of organic traffic, business owners must know how to get their site ranked high for the search results of Google and other search engines. On Time Website Traffic is now providing services that enable websites to rank higher on search engines, thus resulting in higher levels of organic traffic. A complete list of the company's services can be seen at <http://www.ontimewebsitetraffic.com/service.html>.

"Business owners have to understand that nearly 90 percent of all websites aren't getting any traffic," says Marcus Brown, spokesperson for On Time Website Traffic. He adds, "Most just don't know how to get good levels of traffic, and so their websites grow stagnant."

SEO studies show that the top three websites listed on the first page of Google results for any chosen keyword will earn up to 50 percent more than other sites. This is because the average internet user looks only at the first one or two pages of search results for their chosen keywords. Sites not found on those first two pages are likely not to be seen by millions of users searching for their business.

"The best traffic that you can get is search engine traffic," says Marcus Brown. He explains, "Search engine traffic is continuous, it's targeted to a business's specific industry, and it's free."

On Time Website Traffic offers a completely natural solution to building search engine rankings, allowing site owners to see higher levels of quality traffic. Business owners seeking more information about this organic traffic solution can visit On Time Website Traffic at <http://www.ontimewebsitetraffic.com>.
