PBJ Online Releases New Product To Diffuse Essential Oils For Healthy Living

July 22, 2015

July 22, 2015 -
The new aromatic device by PBJ Online of Colorado has recently been launched on their Amazon store. The diffuser utilizes ultrasonic waves to disperse molecules of essential oils. Company spokeswoman, Theresa Edelstein explains, "The advanced ultrasonic wave technology used in this diffuser generates a cool, soothing aromatherapy mist which helps ensure you absorb every botanical essential oil nutrient."

Diffusers that use ultrasonic waves to generate mist rather than heat are considered better when using water soluble essential oils. "Our aromatherapy diffuser uses ultrasonic waves to disperse your essential oils rather than heat to preserve the integrity and properties of the essential oil," Theresa explains. Customers who have purchased the diffuser have reported their satisfaction as one user, Amy, reviewed: "With just a few drops of essential oil, the room fills up and we receive the wonderful aromatic benefits. It also automatically turns off after the reservoir is empty."

The increase of product awareness has led to customers purchasing an increasing number of essential oil diffusers, which has grown by 250% over the past five years according to figures by Google Shopping Trends. The use of diffusers with various types of oils has not only been used for therapeutic purposes, but to manage symptoms of diseases and illnesses. A spokesperson from National Cancer Institute has stated, "Aromatherapy research with cancer patients has revealed its effect on health conditions and quality-of-life issues such as cancer-related symptoms, stress, and anxiety." He continued, "Studies have shown that certain essential oils have antibacterial, antiviral, antifungal, calming, or energizing effects when used in diffusers."

A customer expressed their experience with the diffuser's therapeutic effect saying, "We love to diffuse wild orange to uplift our mood, or lavender if we are stressed and need to relax!" However, if the customer is not satisfied with their product, PBJ Online has offered a 90 day guarantee to replace any diffusers that fail to meet with their expectations.

The product is currently only sold the PBJ's Amazon store and any customer who wishes to purchase the oil

diffuser can do so by following the link: http://www.amazon.com/gp/offer-listing/B00UK93ITQ/?seller=A23QECXJYYPWTK.
