Dog Nail Clippers Released To Help People Have Healthy Pets

July 22, 2015

July 22, 2015 -
Monument, CO business PBJ Online has recently released its dog nail clippers on Amazon. The listing can be seen on http://www.amazon.com/gp/offer-listing/B00LE2I8ZC/?seller=A23QECXJYYPWTK. The clippers are designed to help people ensure their pets are healthy at all times, enabling them to clip their nails to the proper length without risking injury to paws.

Theresa Edelstein from PBJ Online says, "Many people never clip their pets' nails because they worry about hurting them. Unfortunately, however, if a dog doesn't have their nails clipped, they may end up being uncomfortable or in pain as well. Our dog nail clippers are designed to be completely safe to use, allowing for healthy pets."

The nail clippers are specifically design for small to medium sized dogs, but can also be used on cats. The blades, made of stainless steel, are razor sharp, which means they will leave a quick, clean cut for the lifetime of the clippers. The blades are curved, which means that they don't crush the pets' nails as many similar products do. This will leave the pet comfortable at all times.

The clippers come equipped with a nail guard. This stops people from accidentally cutting the nails too short. As such, it protects the animal from pain, discomfort and potential injuries. Other safety features include a locking mechanism, so that there is no chance to accidentally cut something when the clippers are not in use. Finally, they have comfortable, ergonomic handles to leave the user comfortable as well.

In the short time since originally being released, the clippers have already received various highly positive reviews. "I have two little dogs, neither of them are easy to groom, but one is especially hyper and will not sit still for anything," says Becky G. "This clipper was so easy to handle! What a relief that I could take care of both my little babies in no time! I highly recommend this product!"

As an added feature, the clippers currently come with a free extra strong nail file as well. This allows pet owners to make sure any final rough edges are removed from their pets' nails.
