

## **Aaron Kosins MD, One Of The Top Newport Beach Plastic Surgeons, Gets Another Five Star Review**

*May 29, 2019*

May 29, 2019 - PRESSADVANTAGE -

Aaron Kosins MD, one of the top plastic surgeons in Newport Beach, California, has announced with pride that he has recently received another perfect five star review. On Yelp, Shelley K. gave the plastic surgeon a five star rating. The review was for a rhinoplasty procedure that Shelley underwent to correct her chronic breathing issues. The problem started when Shelley got hit in the face with a metal tetherball.

Shelley K. said in her review, "[...] Well Dr. Kosins inspected my nose and told me I had an enlarged turbinate which was obstructing my airway from my left nostril, and so now I know exactly why I can't breathe properly from one side (and I don't have to keep guessing why I'm the way I am!). The best part was he told me he'd fix it, along with my other concerns about my bridge, etc. The consultation felt quick and efficient ("to-the-point"), and overall I thought of Dr. Kosins to be very reliable and professional, as he stated the statistics of revision rates, average procedures per week, etc, which were all stellar and facts I was going to ask him about prior, but he answered them succinctly before I could even ask! [...]?"

Indeed, Dr. Kosins is one of the best Newport Beach plastic surgeons, being always on the cutting edge of plastic surgery, especially rhinoplasty. He has been the author of several articles on the subject and he has

lectured on the treatment and anatomy of the nasal bridge. One of his primary contributions to the field of rhinoplasty is the treatment for The Plunging Tip, which is a nose that gets wider and plunges when the person smiles. In addition, Dr. Kosins and R. Rollin Daniel, who is now retired, have conducted studies on piezoelectric surgery for rhinoplasty, which allows the non-traumatic shaping of the nose.

Another procedure that Dr. Kosins can perform is breast surgery. Currently, he is offering Natrelle® breast implants to his patients. These breast implant devices have only recently been made available in the US, and Dr. Kosins has already obtained a lot of experience with these implants. According to Dr. Kosins, the variety of shapes and gel types have provided his practice with a substantial boost in what he is able to offer his patients. Because no two women are exactly the same, the Natrelle® Gel is available in various sizes and projections, and are designed to provide that soft feel.

Dr. Kosins can also perform secondary breast procedures to correct certain complaints that women have with their previous surgery. These include improper positioning of the implant, resulting in low or loss of cleavage; deflation; asymmetry; and capsular contracture. The secondary breast procedure may also be performed for implant maintenance, as it is recommended to replace the implant about every 10 years.

Dr. Kosins can also help with facial aging and rejuvenation. Here, he has done a lot of studies to understand the three processes that affect the face as the person ages: the tendency of the soft tissues of the face to fall with gravity over time; atrophy of facial fat over time; and aging of the skin due to exposure to tobacco, the sun, and oxidation reactions. To correct facial aging, the doctor can perform lower face and neck lift, mid facelift or cheek lift, brow lift, blepharoplasty, and ptosis surgery.

Dr. Kosins obtained a Business Administration degree from the University of Southern California while he was completing his Pre-Med course. Later, he obtained both a Medical Degree (MD) and a Masters in Business Administration (MBA) degree at the University of California Irvine School of Medicine and Paul Merage School of Business, respectively. He is board certified by the American Board of Plastic Surgery. And he is also a reviewer for the rhinoplasty section of the Aesthetic Surgery Journal.

People who are planning to schedule an appointment with Dr. Kosins can visit his website at <http://aaronkosinsmd.com/>, call him on the phone, or contact him via email.
