

L.A. Remodelers Pacific Palisades Serve First Customers During Opening Week

May 31, 2019

May 31, 2019 - PRESSADVANTAGE -

L.A. Remodelers Pacific Palisades recently opened their doors in the Pacific Palisades, Los Angeles area, where they have served their first few customers.

Matheus Henrique, a representative of the newly arrived remodelling specialists said, "We are very happy to see the warm welcome that the residents of the community have given us. Within the first few days, a couple of residents stopped by our new offices to request our free estimates, which we gladly provided. No more than a few days afterwards, we already had our very first projects booked. We have treated them with the excellence and thoughtfulness that our clientele deserve, and our future customers can expect nothing less. From now on, the Pacific Palisades community can rely on us to provide a top-tier service, the likes of which they have never seen before in the area. We will work hard to exceed the expectations of our future clients, and ensure that all their desires are met in a timely manner."

The remodelling specialists have invited the L.A community to visit their brand new business website, which boasts a strong library of information regarding the company's services and past projects—a useful metric that will enable new customers to gain an appreciation of how much the company can do for them. View their

website through the following link: <https://laremodelerspacificpalisades.business.site>.

"When my shower pan had a leak, we decided it was time to repair, and have a complete makeover of, our bathroom," said David Allen, one of the first customers that L.A. Remodelers Pacific Palisades was called upon to help. "Since we do not have that much experience in renovations, our biggest worry was placing trust in a company to take care of the project. L.A. Remodelers Pacific Palisades' team put me at ease and truly made the process as seamless as possible."

Allen elaborated, "The very first contact with the company was excellent, as there was someone on the line ready to take the call. During our first meeting, the contractor in charge was punctual and the discussion on the scope of work was insightful and educational. I never once felt intimidated and my questions and suggestions were met with patience and understanding. What surprised me, most of all was the sense of ownership the team took to the job. It felt as if though they were working on their own unit and never thought twice about going the extra mile. The quality of work, as well as the craftsmanship, was so good that we decided to add tile to the kitchen as well. I would recommend L.A. Remodelers Pacific Palisades to anyone seeking to renovate their home."

Henrique invites those interested to view the company's coverage area through the following link: <https://goo.gl/maps/eduQVLubxW72>. He stated, "We are dedicated to providing our customers with top-notch style and design at an affordable price, ensuring that they can finally put in motion that project that has been pushed aside for too long. We take pride in providing top quality construction, as we have mastered the art of transforming our clients' true visions into real-life spaces. We provide guaranteed quality work with a warranty, ensuring your home wish list is accurately translated into reality and follows a strict code of ethics."

The company offers a complete selection of services, covering everything from small repairs on malfunctioning home appliances to complete makeovers as a part of indoor and outdoor renovations. These services also include the essentials that are expected of a general contractor company with the pedigree of L.A. Remodelers Pacific Palisades, such as House Remodelling, Backyard Remodelling, Repair Services on a diverse variety of house appliances, Air Conditioning Repairs, and Boiler Service and Maintenance.

For more information regarding the company's many services, customers are able to contact Matheus Henrique, who is always pleased to provide any further assistance that is required.
