Soundview Family Dental in Edmonds Announces Dental Implant Services

May 28, 2019

May 28, 2019 -
Edmonds, Washington - Soundview Family Dental is pleased to announce that they are now offering dental implants in their Edmonds, WA office. Dental implants add to their line-up of solutions for missing teeth.

Dental implants are surgically installed posts that are fitted into the jawbone. These are used to affix dental restorations and fill the gap in a person's smile. Implants can be used to replace a single missing tooth or all of a patient's teeth. They are the cutting edge for restorative dentistry, and Soundview Family Dental is proud to be the dental office of choice for the latest procedures for improving smiles.

As a top-rated Edmonds dentist, owner and lead dentist of Soundview Family Dental, Dr. Eric Kitts is committed to patient care. One of his top priorities is providing treatments and procedures that exceed expectations for results. The office stays up to date on the latest techniques, as well as having a modern dental office equipped with state-of-the-art technology.

Those that suffer from missing teeth, and want to fill a gap in their smile, will be pleased with the results provided by dental implants. Implants offer a more comfortable way to restore a smile, in addition to being a

permanent solution. Another advantage that many patients enjoy is having a natural looking smile.

Traditional dentures, while a less expensive approach to replacing a full arch, often look artificial. Dental implants, however, are very realistic. The restoration, whether it be a crown, bridge, or overdenture, is sculpted to match a patient?s smile and add balance to the face.

Dr. Kitts has said, ?It is our intention to deliver high-quality oral health care. We are committed to furthering our education and investing in the latest technologies. With advanced techniques and technology, we're able to simplify treatments, eliminate pain from the equation, and help our patients achieve better outcomes."

Located at 201 5th Ave S SUITE 103, Edmonds, WA 98020, Soundview Family Dental has been helping patients achieve their dream smiles for nearly twenty years. With the addition of dental implant services, they add another fantastic option at their dental office for patients who desire a full smile, one they can be proud to show off.

Those interested in dental implants, may call Soundview Family Dental at (425) 563-6360 for more details.
