

Bluestone Property Management Offers Stress Free Property Management In Brisbane

June 18, 2019

June 18, 2019 - PRESSADVANTAGE -

Bluestone Property Management & Sales, a business based in Bowen Hills, Queensland, Australia, has announced with pride that they are providing stress-free property management in Brisbane and neighbouring areas. The company is a specialist property management agency that manages a wide range of diverse types of properties. New properties are added at regular intervals by investors who want to join and utilise of the highly experienced Bluestone Property Management team. Their knowledge about managing properties in South East Queensland is second to none.

Mark Shorrock, managing director and principal licensee at Bluestone Property Management, says, "We are happy to be able to offer our stress-free property management services to people in Brisbane. We pride ourselves on being low-maintenance, high performance, effective communicators and deeply engaged in the markets we serve to ensure our owners can rest easy knowing we are on top of their precious investment portfolios. We would love to talk to you about how to minimise the stress and maximise the returns on any Brisbane based investment properties you or your friends and family own."

For rental properties, Bluestone Property Management offers services to both tenants and property owners.

For tenants, they provide assistance with regards to application forms, maintenance requests, emergency repairs, and tenants' notice of intention to leave. For property owners, they offer assistance with regards to property management, rental market appraisal, choosing the right property manager, choosing the optimum rent price, and digital marketing. Meanwhile, those who are interested in being updated regarding developments in property management and sales can check out the Bluestone Property Management Facebook page on a regular basis.

For property owners, the company offers a Rental Guarantee, which ensures that the owner will receive income even when the market conditions become unfavourable, such as when there are periods of vacancy or when rental returns are lower than expected. They provide two kinds of Rental Guarantee: the FastStart Cashflow Rent Guarantee and the FastStart SafetyNet 3 Year Rent Guarantee. Property owners would only be able to choose one of the two guarantees but both can provide peace of mind when buying or transferring an investment property.

Bluestone Property Management also offers services for property sellers in terms of market appraisal and selling tips. Clients can request for a rental appraisal from the company using an online form. Meanwhile, property buyers can also put in a request for available properties for sale by using an online form where they can enter the suburb they prefer, the price range, the minimum number of bedrooms, the maximum number of bedrooms, the number of bathrooms, and the number of car spaces.

Meanwhile, they also offer the Bluestone Connect service, which helps property owners save time and money by connecting them with the best deals from a wide range of providers. Clients only need to provide their current address and the services that they are interested in. These services include electricity, insurance, removals, truck hire, maintenance, garden, homewares, natural gas, pay TV, packing, locksmiths, appliances, security, broadband, cleaning, storage, finance, solar, and conveyancing. Bluestone Connect also provides a free comparison check on a property owners' current electricity account to find out if they can save time and money by switching providers. They will only need to provide some details including a copy of their current bill. They will then be given a confirmation text and then a telephone call from one of the Bluestone Connect representatives within two business hours.

Bluestone Property Management has more than 62 years of local area experience and is already a provider of property management services and support to several prominent investment and development groups. They pride themselves in being high performance, low-maintenance, and effective communicators. Those who are interested in the services offered and would like to visit their offices can check the Bluestone Property Management Google map. Or those who are interested can visit their website, or call them on the phone, or contact them via email.
