May 28, 2019 - PRESSADVANTAGE -

Mobile, Ala. ? With summer temperatures on the rise across the nation, many local homeowners are facing costly leaks in their underground plumbing caused by the change in temperature. A leak repair company in Mobile is proud to announce that they are on a mission to help homeowners avoid these costly repairs in their pools by providing quality customer care and their innovative non-invasive water leak detection and repair.

The Mobile pool leak repair team offers support on a wide range of water leak detection solutions for residential, commercial and municipal customers. Their leak detection services range from swimming pools, spas, fountain cracks to underground plumbing systems and leak repairs in Mobile. With their proprietary methods and cutting-edge infrared and acoustic equipment, the highly trained service professionals pinpoint the exact location of hidden leaks without causing expensive, unnecessary damage to quickly and effectively to address any burst pipes or cracks to save their clients time and money while offering peace of mind.

One previous customer wrote, ?American leak detection has helped us out of several tight situations, they are always helpful and have solved some plumbing issues in historic houses that I thought were impossible. They have made last-minute emergency calls to our beach house when short term tenants? flush impossible

things down the drain and have always arrived on time and left everything cleaned up. My husband and I have several rental properties and we count on them for our plumbing and gas needs. Thanks guys!?
