

Pigment Announces Cabinet Painting In Charlottesville Virginia

June 03, 2019

June 03, 2019 -
Pigment, a company based in Charlottesville, Virginia, recently announced that they are now offering cabinet painting services for their clients. The company states that they can provide painting for bathroom or kitchen cabinets and that they offer a wide range of options to ensure the satisfaction of all of their customers.

Christy Baker, a representative for the company says, ?We are pleased to now be providing our customers with the highest quality of cabinet painting for all of their home remodeling or building needs.? Baker says that a full list of the company?s services can be seen at https://www.pigmentcolordesign.com/cabinets.

The company has a professional finishing shop in Charlottesville, conveniently located close to the downtown area, where they boast more than 2,500 square feet of workspace. The shop also houses a professional spray booth, prep room and artistic finishes studio. Baker says that the company specializes in painting cabinets for the kitchen and bathroom, or other rooms in the home.

?We can finish solid wood cabinets, repaint older cabinets, and we offer a custom approach to everything that we do,? Baker states. ?Our process is professional and sophisticated in order to ensure that each and

every client is completely satisfied with their results.?

The company offers finishes that range from a matte or chalk finish to a high gloss look. They can also provide customers with an artistic finish such as an antique look, wash effect and many others. Baker says that although they are located near downtown in Charlottesville, the company provides services to a wide range of locations in the area. Those interested can see more about their location by visiting their location page at https://www.google.com/maps?cid=6882413286904275772.

Baker states that the first step in the process is to contact the company to receive a free estimate. Those who would like an estimate can contact the company directly or visit them on their website and fill out an online request form. Once that inquiry has been received, Baker states that the company will schedule a time to visit the home and talk with the client about their needs. She adds that it only takes a couple of days for the company to provide an estimate, as well as an overview of their unique approach to getting the customer the specific cabinet finish that they want.

Along with the estimate, the company will provide the customer with a custom color selection and recommend certain materials that they feel will work best for the customer?s needs, as well as an estimate of when the customer can expect the job to be finished. Baker states that they can also create a sample for the customer if requested so that they can see in person how their new cabinets will look when they are finished.

Once the customer has agreed, a team will come to the home to remove the cabinet drawers and doors. Those items will be taken to the company?s professional workshop to begin their transformation. Baker says that once the cabinet fronts are finished and they have had ample time to dry thoroughly, the team will once again return to the home to reinstall them for the customer.

Pigment has a show crew that is led by a professional painter who has more than 20 years of experience in his field. The company states that their lead painter oversees every project to ensure that all customers are completely satisfied with their end result. The company adds that because they do have a brick and mortar location in Charlottesville, they are able to better optimize their interaction with customers, and offer them an in-person consultation. Those who are interested in learning more about the company and their services or in scheduling their own estimate can visit them on their website to complete the contact form or call or email them at any time during their normal business hours. Homeowners in the area who are interested can also visit the company on Facebook to read through their many glowing customer reviews. The page can be accessed at https://www.facebook.com/pg/pigment.va/reviews.
