Pastor Beauchamp's home was damaged by Hurricane Michael and a neighbor, whose home was also damaged, recommended Noble Public Adjusting Group. The neighbor hired Noble after his Insurance Company would not work with him and he was more than pleased with the assistance of Noble and the outcome of his Claim.

In their conversation Pastor Beauchamp said he wasn't aware of what a Public Adjuster was but after hiring Noble, he understood just how invaluable their services are. Noble's process is to identify the Policy, assess damages, file all the appropriate and necessary paperwork, and be on the property each time an Insurance Company is present. Noble has the expertise and the knowledge needed to point out different concerns and damages that might otherwise go unnoticed or be ignored by an Insurance Adjuster. Often times these hidden issues, such as roofing truss damages, aren't visible to the homeowner.

Beauchamp said hiring Noble was a huge help to him because many of the issues would not have been recognized but with Noble being there to point them out, they received a much better assessment of the true damages. Pastor Beauchamp also had this to say, "Noble is going to be right there for you. I know they were

for us. It just takes a lot of the running around out of your hands and puts it in their hands and they take care of all those things for you. They contact the insurance Company, they come out and oversee the inspection process, the estimation process, and they just do all of the leg work for you. I think that's the biggest thing that helped me. And so I would just say if you're tired of trying to deal with your insurance company yourself and you want somebody else to do the leg work for you, then by far, contact Noble Public Adjusting. They're gonna help you. Big Time.?

Noble Public Adjusting Group is the only Local Public Adjuster in the area and they helped Pastor Beauchamp obtain his full policy limit for the home's \$200,000 value.
