## **Brisbane Funeral Director Now Offering Vietnamese Funerals**

*July 08, 2019*

July 08, 2019 - PRESSADVANTAGE -

Oxley, Queensland based Premier Funerals, recently announced that they are now providing Vietnamese Funerals to serve the local Vietnamese community in Brisbane and the surrounding areas.

Established in 1989, Premier Funerals has long been recognized as one of the most valued funeral service providers in the greater south-east Queensland area. They have chapels and memorial gardens in many locations, from Ipswich up to the Sunshine Coast, and have a broad understanding of the needs of the locals as well as multicultural communities. Premier Funerals now also serves the Vietnamese community in areas like Oxley, Darra, Inala, Corinda, Sumner, Forest Lake, and Durack, since the company has gained a wealth of experience with the funeral rituals and burial rights of both Vietnamese Christians and Buddhists.

"Our funeral directors have years of experience and a true desire to deliver a funeral service to meet your specific wishes," says a spokesperson from Premier Funerals. "We understand that losing a loved one is a devastating and difficult experience, so we have created a service that will provide you with a stress-free funeral service that your loved one truly deserves. Our professional and friendly staff care deeply for the way your loved one is presented, and we will ensure that the final viewing will be a peaceful experience" while

showing an outstanding level of care throughout the entire funeral process.?

As noted on the company?s website, Premier Funerals is a professional Brisbane Funeral Director that provides full and comprehensive funeral services, as well as small and private farewells. To assist families during their time of bereavement, the company provides a funeral service that suits specific needs and circumstances, religions, and cultures. The company spokesperson also states that Premier Funerals? experienced and professional staff assist and guide families in creating a funeral service that reflects their personal values, preferences, and their loved one?s individual life story.

Premier Funerals? range of services include obituaries, flower selection, order of service, eulogy, final viewing, coffin or casket selection, burial services, cremation services, memorialization, and scattering of inurnment. ?We offer a number of ways for you to honor your loved one?s life, pay tribute, and celebrate special memories as you say goodbye and begin to heal and find closure. Organizing a funeral may seem frightening, and it is easy to feel overwhelmed with all the paperwork and arrangements?while also dealing with family and friends and coming to terms with your own grief. At Premier Funerals, our staff is available to give expert advice, and we will calmly walk you through the process of arranging a funeral and completing paperwork, thereby lessening your worries,? assures the spokesperson.

Furthermore, the funeral company also offers pre-planning services for the people who want to plan their own funeral ahead of time in order to avoid being a financial and emotional burden to their loved ones who will be left behind. ?Unfortunately, very few people plan ahead for a funeral or memorial because of its emotional cost. Such planning centers on a sad and possibly traumatic event in our lives, a time we are not looking forward to; that?s why most families do not even discuss what should happen if someone they love dies. Unfortunately, we have to face the truth that, when someone dies, having a pre-planned burial can be beneficial for everyone,? explains the spokesperson.

Premier Funerals is one of the most preferred funeral service providers in Brisbane and the surrounding areas, as illustrated by the positive reviews and recommendations they receive from many of their previous clients.

Jason K. left an outstanding 5-star review on the Google platform, saying, ?My father passed away recently, so I appointed Premier Funerals. The service from Premier Funerals was nothing but first class. Julian was so helpful, as he guided us through this tough time and handled all the arrangements. I would highly recommend Premier Funerals.?

Similarly, Kim Vo said, ?Premier Funerals is very professional, understanding, and sensitive to culture. I found Julian from Premier Funerals to be very professional, patient, and understanding throughout the whole process of organizing a funeral. He was there every step of the way, through a difficult process, and assisted

me with any questions or issues I had. Julian was also very knowledgeable and sensitive to our culture and understood my family's needs. He also ensured the service ran as smoothly as possible, and I can't thank him enough.?

Complete details can be found on the company's website. Interested parties may also contact Premier Funerals by calling their service hotline. Alternatively, social media users may connect with the company through their official Facebook page to learn more about the services they offer.
