The Key Guys Offer Support To Auto Shops

June 14, 2019

MINNEAPOLIS, MN - June 14, 2019 -
The Key Guys, a Minneapolis based auto locksmith company, in addition to offering their assistance to motorists who lose or damage their keys, lend their support to local car repair shops, including gas stations, body shops, and auto dealerships. With keys to vehicles becoming more complicated, specialist items, replacing or repairing them requires specialized training and specialized equipment.

As a professional auto locksmith company, The Key Guys have the knowledge, ability, and equipment required to repair or replace any car key, and since not all car shops can afford to have fully equipped and trained locksmith on hand, The Key Guys also make themselves available to such companies. They recently announced that they now have a Same Day Service commitment to Twin City area car shops, stating, ?We will fix it for you so you can offer your clients top rate service without the need to invest in locksmith skills and gear.?

The company was honored to receive the Angie?s List 2018 Super Service Award, an acknowledgement meant to honor service professionals who maintain exceptional service ratings and reviews on Angie?s List in 2018. The founder of Angie?s List was quoted saying, ?Service pros that receive our Angie?s List Super Service Award represent the best in our network, those who are consistently making great customer service their mission. These pros have provided exceptional service to our members and absolutely deserve recognition for the exemplary customer service they exhibited in the past year.? The award is an indication of the company?s commitment to providing high quality service, as well as the positive reception they enjoy from the customers and partners.

The locksmith service has over 50 years of combined experience in providing automotive locksmith services to the residents of Minneapolis, along with many of the car dealers in the area. The company has built a reputation for themselves by providing high class customer service to each member of their clientele. Putting great emphasis on getting the job done quickly and correctly, The Key Guys strives to ensure that every customer gets the best solution to their problem, no matter how complicated it appears.

The Key Guys recently celebrated reaching 300 reviews on the Google platform with a near perfect rating of

4.9/5 stars, making them one of the best reviewed locksmith companies around. One of the many positive reviews states, ?Highly recommended! I called this company this morning; recommended off Angie's List. The guy said he does most of his business with other companies and dealers, though not as often to the general public. But these are the guys! The guy who helped me was professional, friendly, confident, and peppy. My key and remote fob hybrid for my modern car fell off the carabiner; had me devastated. This guy was able to fully replace it, change the frequency on my car so the old key wouldn't work, and even gave me a spare standalone key in case something like this happened again! All of this was reasonably priced.?

They are an, ?Absolutely outstanding company,? says another review. ?I called them to help me with an issue on my truck lock, and the guy who answered the call was very professional, helpful, friendly, and happy to help. He gave my phone number to an associate that was working on someone else's lock that was closer to me so I wouldn't have to wait so long, which I really appreciated. The guy gave me updates regularly so I would know when he would be here and when he arrived he was really friendly and worked hard to get it done in time for us to leave when we had to. The price I paid was excellent, and he even gave me a copy so I wouldn't run into the same problem again. I highly recommend The Key Guys, and they will be the only ones I will call if I ever need keys or help with locks again.?

The company is equipped with the right tools and knowledge to replace car keys quickly and efficiently. For a highly specialized locksmith service, contact Bryan Nystrom of The Key Guys.
