

Dependable Homebuyers Offers Services To Those Who Want To Sell Land Fast

June 17, 2019

June 17, 2019 - PRESSADVANTAGE -

Dependable Homebuyers, a national property buying company, has announced that they are buying land across the nation. They have been expanding their services so that anyone who owns land in any part of the US can sell land fast to Dependable Homebuyers. Thus, they are looking forward to buying land from any location in any kind of situation.

Dependable Homebuyers owner Evan Roberts says, "We're so excited to announce that our services are now available all over the US and it doesn't matter what kind of situation you are in. Selling to Dependable Homebuyers means that you will not have to argue over commissions or hidden fees with a real estate agent and you will be able to rest assured that the amount offered is what you will walk away with at the closing table. Our team of professional land buyers will take care of everything and answer all of your questions throughout the process."

In a previous press release, Dependable Homebuyers had announced that they are ready to buy houses

from homeowners despite a slowing real estate market. This can be gleaned from <https://www.pressadvantage.com/story/28915-dependable-homebuyers-issues-advisory-about-slowing-real-estate-market-in-maryland>. At the present time, they would now like property owners to know that they are ready to buy land in any kind of situation in any location in the United States.

Evan Roberts wants to point out that they are interested in any piece of land, no matter the situation. Whether it is vacant, raw, or unwanted raw land, anywhere in the United States, they will still make an offer so that homeowners who are interested can sell their land fast. Landowners, whatever their reason for wanting to sell their land fast, may want to contact Dependable Homebuyers, whether it is rural, agricultural, or undeveloped land that they want to sell.

The major advantage of their offer is that closing would be fast because there would be no real estate agent or any middleman. They will be buying the land directly from the owner. Thus, there would be no need to pay any fees or commissions so that not only would the transaction take a much shorter time than the conventional way of selling land but the seller would be getting the full amount that will be offered by Dependable Homebuyers.

Furthermore, Dependable Homebuyers would be paying in cash so there would be no need to wait for the approval of a bank. Evan Roberts wants to emphasize that there would be no need to argue with a real estate agent regarding commissions and hidden fees. Sellers will be able to rest assured that the amount offered will be what they will get when it comes time for the closing. The company's team of professional land buyers will handle everything during the process and they will answer any questions from the sellers.

Evan Roberts explains that the best way to sell land is to work directly with the buyer. This is because real estate agents rarely put as much time and effort to selling land compared to selling houses. Also, when a parcel of land is listed with a realtor, the real estate commissions and other brokerage fees are included in the selling price, making the land appear to be more expensive. With the lack of enthusiasm in selling land and its increased listed price, it is common for a piece of land to be on the market for a long period of time.
