

5 Star Rated Orlando Insulation Company Opens New Office Location

June 17, 2019

June 17, 2019 - PRESSADVANTAGE -

Insulate It Solutions, a local insulation contractor in Orlando Florida, has just announced the opening of a new office located in Orange County Florida. The opening of this office is a statement to the growing awareness of the importance of energy efficiency in the Orlando Florida area.

Speaking with the owner, he had this to say on the new location: "with the increasing demand for attic insulation services due to rising energy costs for cooling here in Florida, it was only a matter of time before we had to open up a new office location seated in the center of our main service area of Orlando, FL."

With consistent temperatures in the 90's during Orlando Florida summers, and future plans to retire Orlando's 2 coal plants, it is advised that residents become more aware of energy efficiency. With proper home insulation attributing to cutting monthly energy costs in half, Insulate It Solutions states that "it's the best place to start without breaking the bank."

According to the Energy Star website, a program run by the U.S. Environmental Protection Agency and the U.S. Department of Energy: "Air that leaks through your home's envelope - the outer walls, windows, doors,

and other openings ? wastes a lot of energy and increases your utility costs. A well-sealed envelope, coupled with the right amount of insulation, can make a real difference on your utility bills. Sealing leaks and adding insulation can improve the overall comfort of your home. Most homes in the United States don't have enough insulation and have significant air leaks. In fact, if you added up all the leaks, holes and gaps in a typical home's envelope, it would be the equivalent of having a window open every day of the year.?

According to the company website, Insulate It Solutions offers various forms of insulation services. From blown in insulation, fiberglass insulation (Batts) and radiant barriers to insulation removal, attic restoration and attic cleanouts, they cover all forms of insulation contracting aside from spray foam insulation services.

With almost 2 decades of offering insulation contractor services, Insulate It Solutions has received very positive feedback from local Orlando Florida customers that retained their insulation contracting services.

?Had a great experience with this company. I needed new insulation blown in to my attic and not only did they give me a fantastic price but were professional and efficient throughout the entire process. Travis and his crew were on time and did a great job with my insulation. Would definitely use again and recommend,? said Aaron Blackstock in a review.

?My electric bill kept running high and I couldn't figure out why. After checking in the attic I realized the attic was missing a lot of insulation. That is when I contacted Travis. Him and his crew showed up on time, left no mess behind and did an outstanding job! He provided before and after photos of the job and I was amazed at how much I was actually missing. Excellent price and excellent service. I would highly recommend this company!?" said J. Schlegel in another review.
