THE BROWN FIRM

PROTECTING THE INJURED

The Brown Firm Earns Another Five Star Review

June 19, 2019

Savannah, Georgia - June 19, 2019 -
The Brown Firm ? Savannah, a law firm based in Savannah, Georgia, has announced with pride that they have recently received yet another five-star review from a previous client. The client noticed the high level of professionalism and integrity exhibited by the team members and concluded that it was the best injury law firm he had ever dealt with.

Tracy C., the client who gave the five-star rating, said, ?By far the best injury law firm I?ve ever dealt with! Between my case manager Annoda and my lawyer Adam I can?t say enough about this firm or their staff! The communication was top notch. I rarely ever waited more than an hour for a return call or email from them. The process was straight forward and very transparent. They even reduced the amount that I was required to pay in lawyers fees! Which I?ve never seen an attorney do! The level of professionalism and integrity here is almost non-existent when dealing with injury attorneys. I wish I had learned about this firm when I had other accidents that needed a lawyer. Hopefully, I?ll never need an accident attorney again but if I do this is my only choice!?

Harry Brown Jr. DC, JD, managing member of The Brown Firm, says, ?Receiving a five-star review has been a common occurrence for us, but I must confess that each time we get another one, we cannot help but feel extremely happy about it. It gives us great joy because it means that we have satisfactorily provided the kind

of service that the client had expected, or even exceeded it if at all possible. We always take the time and effort to evaluate your unique situation; whether you need us for a car accident claim, medical malpractice lawsuit, truck accident, motorcycle accident or workers' compensation claim, our expert attorneys know the best approach based on your individual needs and circumstances.?

One crucial aspect that makes The Brown Firm stand out from the rest is that Harry Brown Jr. also has expertise in chiropractic care. Being a Doctor of Chiropractic, he can fully comprehend the extent of the client?s injuries and get them the treatment and compensation that they need. He explains that they always make sure the clients get the services of a licensed Savannah personal injury attorney, understand their legal options, get their phone calls promptly responded to, and get regular case updates.

Harry Brown Jr. DC, JD points out that the steps that clients need to take will vary depending on the kind of accident they were involved in. Basically, these steps will consist of documenting the scene with photographs that can be used as evidence, making people aware of the situation, scheduling an appointment with a physician or chiropractor as soon as possible, and calling a personal injury lawyer to help them win their case against the reckless or negligent person who caused the accident.

He also warns clients that in Georgia, they have minimal time to take action after the accident. Thus, they will need to schedule their appointment with the doctor or chiropractor as early as possible. They will also need to know their rights when dealing with the other individual?s insurance company. He warns that they will likely make several attempts to get in touch, but people who got injured from an accident need not talk to them and that it will always be a good idea to have all conversations with them coursed through a personal injury attorney.

Harry Brown Jr. DC, JD also warns people who got injured in an accident that the insurance company will likely want to ask about their symptoms and injuries and will later use the answers provided to reduce the settlement amount. Thus, it is always advisable to have a trusted attorney to handle those questions.

Those who would like to know more about what many clients believe to be Savannah's best personal injury attorneys can visit their website, call them on the phone, or contact them via email.
