

All-In-One Dental Innovations in Dublin, CA Announces Dental Implant Service

June 24, 2019

June 24, 2019 - PRESSADVANTAGE -

Dublin, California - May 24, 2019 - All-In-One Dental Innovations is pleased to announce their All-On-Four Dental Implant service. As a permanent and more natural looking solution to replacing full arches, All-On-Four dental implants can complete a patient's smile in just one day.

All-In-One Dental Innovations is one of the top choices for implant dentistry in the Dublin, CA, area. With the addition of the All-On-Four service, All-In-One Dental Innovations can completely restore a patient's top or bottom arch using only four implants. In this service, four implants are installed into the jawbone to support a special denture. Dentures are created to match the patient's smile using technology, including CEREC.

While dental implants are the latest innovation in the dental field for replacing missing teeth, they can often be a more expensive approach. For those that require a full arch replacement, the All-On-Four dental implant service is cost-effective, while providing more natural looking and permanent results. Implant dentistry can be used for replacing teeth that have been recently extracted or as a replacement for restorative options like bridges, crowns, and dentures.

Traditional dentures have been the primary go-to solution for full arch replacement. With dental implants, patients can expect to have longer lasting results, less mess with no need for glues or adhesives, and a firmer bite allowing more flexibility to eat a broader range of foods. There is no worry that the All-On-Four dental implants will fall out. As they are surgically installed into the jawbone, they provide excellent support for the dental restoration.

The All-On-Four Dental Implants are excellent for those that have dentures already. Dentures can affect the quality of the jaw bone, be uncomfortable to wear, and aren't as natural looking. For patients that desire a more secure way to affix their dentures, there is no better choice for permanent results than All-On-Four Dental Implants.

Lead Dublin dentist and owner of All In One Dental Innovations, Dr. James Huang is a certified implantologist. He holds an implantology certification from Harvard University. Dr. Huang is a board certified oral surgeon, with specialties in implants and pain-free dentistry.

Dr. James Huang has said, "We give patients back their confidence, allowing them to feel happier with their smile. Implant dentistry can change lives. They are more comfortable, permanent, and natural looking than other options available for replacing missing teeth," on the positive impact dental implants can play in a patient's life.

Located at 7046 Dublin Blvd, Dublin, CA 94568, All-In-One Dental Innovations provides cosmetic, general, and preventative dentistry solutions. The dental office features state of the art equipment and the use of the latest innovations in dentistry to give patients the best care and results possible.
