St. Paul Dental Clinic, Chalet Dental Care, Announces New Construction For Expansion

July 01, 2019

July 01, 2019 -

Chalet Dental Care, based in St. Paul, Minnesota, has recently become home to many new patients as several local dentists retire and close their practices. To accommodate this expansion, the long-established Saint Paul clinic is happy to announce that it is currently under construction in order to serve their patients, and the community, more comfortably. While the construction is taking place, the St. Paul dentist wants everyone to know that the dental clinic remains open and there is still plenty of space available in the parking lot.

Dr. Fredrickson and his Chalet Dental Care Team are proud to be chosen and given the opportunity to take care of St. Paul?s dental needs for over 30 yrs.

During this time, Dr. Brent Fredrickson has remained committed to keeping the clinic up to the state-of-the-art in equipment, materials, techniques and staff and new patients. Now was the perfect time to have the clinic expanded as well.

Dr. Fred, as he is affectionately called by his patients, says, ?We are proud to be able to serve so many new

patients and excited that to expand our dental clinic with this new construction.? He adds, ?St. Paul is our home, we love it. My kids love growing up and going to school in here and it means a lot that Chalet Dental Care has been able to be of service for so long, as well as fiscally impacting our community. The expansion allows us to ensure our patients an easier, more equipped and more comfortable office to continue to provide the best dental health care available.?

Heidi, the clinic office manager, goes on to say that, ?Providing the best and most thorough dental experience possible is important to us and positively affecting our patients? lives matters to every one of us here.?

For their regular dental care services, Chalet Dental Care offers comprehensive exams and dental prevention for the whole family, as well as teeth cleanings, periodontal disease treatment, root canal, oral surgery, and children?s dentistry. For cosmetic dentistry, they offer teeth whitening, Invisalign, veneers, same day crowns, dental implants, dentures, tooth-colored fillings, and precision reconstructive dental care.

Dr. Brent Fredrickson explained that the patient?s comfort is their primary concern. Thus, they are focused on pain sensitivity care. By combining a gentle touch and several years of experience working with anxious patients, they are able to provide a comfortable dental experience for their patients.

An important part of providing comfort to patients is their use of pain sensitivity dentistry. This is a way to keep the patient relaxed and calm throughout the dental procedure to make sure they receive the health care they need.

Another important service that they provide is periodontal disease treatment. This is essential because periodontal disease has been found to be associated with higher risks of stroke, cardiovascular disease, pneumonia, poor diabetic control, and pre-term and low-weight births.

For cosmetic dentistry, a popular service is Invisalign braces. This allows patients to have their crooked teeth corrected without the use of embarrassing brackets, wires or bands that are present in the conventional metal braces. Invisalign makes use of a series of clear removable aligners to straighten the teeth. Aside from not being unsightly, Invisalign is comfortable to wear and they are convenient to use because they can be removed when eating, drinking, brushing or flossing.

Meanwhile, proof of the excellent dental care they provide is found in the positive reviews that they have received. For instance, Semeca R. gave the clinic five stars on Google, saying, ?Dr. Fredrickson is very nice and welcoming. They made a crown for my tooth in the same day! The technology there is incredible, and I highly recommend them. Thank you Chalet Dental for the excellent care!?

Justin B. also gave the clinic five stars on Google, saying, ?Chalet Dental Care is awesome. I have been going here for almost 20 years, whoa! Just had a new hygienist Mironda and she was great!?

Chalet Dental Care takes pride in delivering five-star patient satisfaction, which is why they make use of the best solutions and systems to serve the patients in the very best way that they can. Their skilled dentists are capable of providing comprehensive dental care and precision cosmetic dentistry. They have been serving the residents of Falcon Heights, Como Park, Roseville, Little Canada, Highland Park, and neighboring St. Paul communities like Payne - Phalen, Summit - University, and Macalester - Groveland.

People who need more information about the services offered at Chalet Dental Care can visit their website or contact by telephone at (651) 964-3519. They are open from Monday to Thursday, from 7:00 am to 5:00 pm, and on Fridays from 7:00 am to 12:00 pm. The St. Paul dental clinic is located at 1651 Dale St N, St Paul, MN 55117.
