Local Locksmith Advises Customers To Install Keyless Entry Locks

July 02, 2019

July 02, 2019 -
Fast Eddys Keys Express, based in Minneapolis, Minnesota, recently published a new article in which they advise their customers to adopt the use of keyless entry locks. The local locksmith explains that keyless entry locks are a safer alternative over traditional locks, and have been rising in popularity in both businesses and homes due to their convenience.

Edward Mann, founder of Fast Eddys Keys Express, asserts, "Keyless locks have greatly improved over the years. We are now at the point where they are the most convenient, safe, and durable options, with many different models that can compete and surpass even the safest of traditional locks. These models can last a lifetime, and many do not even need batteries to function, meaning you will only need to set it up and it's all set for life."

Mann explains that keyless locks are rising in popularity due to the ease of use, along with the easier access to one's home they provide without having to fumble with keys. Over the years, these alternatives have also become easier to install and maintain, with some models even including the option to easily upgrade from traditional key locks.

While safety is often more important than convenience, this is yet another aspect in which keyless locks excel. While a mechanical key can be lost or stolen, a password protected key will always safeguard the entry to a home or business, as long as it is changed from time to time. Some of the more advanced options come with the ability to program different passwords and access authority levels, allowing or denying the entrance to individuals based on the time and password they enter.

The Minneapolis locksmith explains that while a keyless lock can cost more initially, it makes up for it over time. Mann states, "The cost of replacing the keys for a mechanical lock can add up as time goes on. This can be a significant improvement for businesses with a great number of employees that constantly change over time, as they'll only need to change passwords once every few months instead of changing locks for safety reasons. This will also mean they will no longer have to replace lost or broken keys, which can be

troubling when it's a key stuck in the entrance door to the business."

With so many options available to choose from, and different needs to be fulfilled, choosing the right keyless entry lock can be a daunting challenge. However, the local locksmith has addressed this issue by recommending some of the best alternatives based on price, functionality, and ease of use, as judged by their own experience. For indecisive customers, Mann claims, "We will help you pick the option that fits your needs the best, and we'll personally take care of the installation process too. We'll even explain to you how to set up a password, how to change it, and everything you need to know about your new system."

Their dedication towards serving the community has earned Fast Eddy Keys Express a reputation of excellence within the Minneapolis area, where many rely on the locksmith's services on a daily basis. Joseph Coleman, a recent customer of the local locksmith, shared his experience with the company, saying, "I called Fast Eddy because my antique door lock got jammed. They came over and spent a lot of time trying to rescue the beautiful old lock, and knew a lot about the mechanics of it. Eventually, they had the tools to get the door open, but the lock was beyond repair. However, they knew where I could find a vintage replacement. They clearly know their work and take a great deal of pride in their craft. I definitely recommend them."

The services provided by Fast Eddy Keys Express include Doors & Security Hardware Installation and Repair, Emergency Locksmithing, Commercial Locksmithing, Car Locksmithing, Residential locksmith, the Opening of Safes, and Key Replacement, as well as other complementary services. The company serves the following areas: Minneapolis, Richfield, Bloomington, Edina, St. Louis Park, and Golden Valley, all of which receive the specialized treatment of a professional with over 30 years of experience in the field.

For more information regarding Fast Eddys Keys Express' services, interested parties may contact Edward Mann, or visit the company website for a description of each service.
