Customers Hail Softbreath Socks As The Best Socks For Sweaty Feet

July 28, 2015

July 28, 2015 -
New Orleans, Louisiana company SoftBreath recently released their running socks on the Amazon marketplace. Since that time, customers have been raving about the products, calling them the "best socks for sweaty feet," and the company has decided to drastically reduce their costs in appreciation for the rave reviews.

"We have reduced our price from $14.94 to the current price of $9.95," says Will Spurlock of SoftBreath. "We thought that the least we could do in light of all the positive reviews was to give a little extra something to our customers." The company says that the price cut is ongoing and is not subject to change any time soon. Customers can purchase the socks through the Amazon Marketplace.

The socks, which can be seen at http://www.amazon.com/gp/product/B00VUHOD6Y, are 86 percent cotton and are designed to provide breathability, even for those who tend to sweat profusely through their feet. The design of the socks allow them to stay soft and cushioned, even after use and after multiple washings. Users find them to be very comfortable, even after weeks of wear and washings.

"I have never found a more comfortable sock," says one Amazon customer. "And the fact that they help my feet to stay dry, even after I've worn and washed them at least 20 times, is just icing on the cake."

The backside of the sock protects from blistering around the Achilles that can often occur with low riding socks. The top of the back, or the lip, peaks out slightly while the remainder of the sock remains hidden by the shoes.

SoftBreath is offering a complete money back guarantee to anyone who purchases the socks and finds that they cannot wear them. "If it doesn't fit perfectly, like a glove, or if it's not just the most comfortable sock they've ever worn, we'll give them back 100 percent of their purchase price," says Shawn. "We want our customers to be completely satisfied."

More about the breathable socks, and SoftBreath, can be found on the company's official website at http://softbreath.com.
