July 16, 2019 - PRESSADVANTAGE -

Mexico City based real estate brokerage, Vive Polanco, founded by Josh Stein, is pleased to announce the launch of their new website, which serves to assist those looking to buy, sell or rent high-end luxury properties in one of Mexico City's most exclusive neighborhoods.

The website provides a unique window into the transformation that is bringing Polanco real estate into the digital age, creating a new "Zillow" like service for Mexico City. The website connects developers, investors, buyers, and sellers around the globe with the most up-to-date and accurate inventory in the luxury Polanco real estate market.

Polanco boasts some of the highest real estate growth in all of Mexico and offers an incredible array of condos and homes for sale. "Polanco is an excellent place for investment and many celebrities, renowned business executives, and politicians enjoy the area," Stein says. "It's a private cosmopolitan gem in the bustling capital, surrounded by parks, world-renowned restaurants, museums and some of the best shopping in the world."

Incredible modern apartment buildings are being constructed all across the neighborhood by award winning architects such as Sordo Madaleno and Pancho Guzman. "These concrete and glass apartment buildings are just so beautiful, and the architecture is truly incredible," Stein says. Many of these new apartments are being sold "en preventa" or pre-construction, even before construction begins, oftentimes at highly discounted prices. Prices for new construction in Polanco typically range from \$800k USD to well over \$5 Million USD.

"Polanco has always attracted expats and it's a great place to raise a family. Usually Polanco is where they want to be. With most of the foreign embassies in Polanco and an international mix of restaurants, shopping and museums, Polanco is a perfect place to call home." Mexico City is also becoming one of the best start-up hubs in the world, which is helping to attract many foreign investments into the area.

The new Vive Polanco website makes it easy to browse through all available properties for sale and rent and the inventory is updated on a daily basis. With beautiful large images, map searches and mobile friendly design, Vive Polanco is already making waves in the local market.

The real estate brokerage has extensive experience in digital marketing and has partnered up with some of the most well-known real estate developers in Mexico City, helping to market and sell their inventory.

The founder, Josh Stein, has sold more than \$250 Million USD in luxury real estate in Miami and has been a pioneer in the digital real estate sector in the US, founding two successful proptech firms, based in both Miami, FL and Aspen, CO.

Those looking to buy, sell or invest in Polanco are invited to visit the new Vive Polanco website at www.vivepolanco.mx or call +52 (55) 2145 7914.
