

Ethos Spa Skin & Laser Center Offers Lip Injections As Alternative To Plastic Surgery

July 16, 2019

July 16, 2019 - PRESSADVANTAGE -

Ethos Spa, Skin & Laser Center, based in Summit, New Jersey, has announced that they are offering lip injections as a non-surgical alternative to plastic surgery for lip augmentation. Aside from the fact that lip injections are non-invasive, unlike lip augmentation surgery, they are also a more affordable alternative. These can be used, whether people want to add volume to their lips or reshape their upper or lower lip.

“One of the most popular dermal filler procedures is lip injections. They are a great alternative to plastic surgery, producing similar results and at a fraction of the cost,” says Hardik Soni, founder and medical director of Ethos Spa, Skin & Laser Center. He adds, “Whether you want to add volume to thin lips or reshape your upper or lower lip, dermal fillers can help. Call us today to request an appointment for a free consultation.”

Dermal fillers offer the advantage of being an outpatient procedure that requires little to no downtime. Also, the results are noticeable usually within just 24 hours, depending on the kind of dermal filler chosen by the client for lip enhancement.

According to Hardik Soni, non-surgical dermal fillers provide an excellent way to enhance the client's facial contours or features, correcting scars, and reversing the signs of aging. Some of the most common uses of dermal fillers are lip augmentation; facial symmetry where plumping of asymmetrical areas is used to achieve evenness; facial rejuvenation and sculpting for the purpose of adding fullness to define a specific feature, such as the cheeks or temples, without using facial implants; eye firming; elimination of folds, fine lines, and wrinkles like crow's feet and lip lines; scar revision to minimize acne scars and other types of scars; chin augmentation; and earlobe and neck rejuvenation.

Those interested in knowing about developments involving Ethos Spa, Skin & Laser Center can visit their Facebook page at <https://www.facebook.com/MyEthosSpa>. Meanwhile, patient testimonials have been mostly positive. For example, Nicole W. says, "Doubtful this would work at first, but it did, and I'm satisfied with the results. I mentioned exactly what I expected and they delivered. They also took the time to talk to me about what would happen. Appreciate that so much!"

Another patient, Anna S. says, "Been an Ethos customer for I think 4 years now. Every time I try a new service I'm always amazed at how professional they are with everything. You're really getting your money's worth. Special shoutout to the front desk lady (sorry I forgot your name) for helping me relax before my butt lift!"

Other services offered at Ethos Spa, Skin & Laser Center include Botox, CoolSculpting, laser hair removal, Brazilian butt lift, tattoo removal, and more. CoolSculpting is an innovative body contouring procedure to eliminate undesirable fat in stubborn areas, resulting into a slimmer silhouette. The procedure will only require around an hour to treat several parts of the body. The treatment is able to eliminate up to 25 percent of fat cells in the treated area, permanently. However, the full results will only become evident after four to six months.

The Brazilian butt lift is another one of the popular procedures at Ethos Spa. This particular procedure can get rid of a sagging backside. An important advantage of the Sculptra Brazilian Butt Lift, offered by Ethos Spa, is its simplicity. While the conventional butt lift procedure requires invasive surgery to remove fat from certain areas of the body, the Sculptra butt lift is a one-step procedure that stimulates the body's natural collagen production. The Sculptra requires just three to four treatments of about 10 minutes each. These are sufficient to produce long-lasting results, which are shapely and round buttocks.

Those who want to know more about the lip injection treatments and other services offered at Ethos Spa Skin & Laser Center can go to their website, or contact them via telephone or email.
