

## **TCT Real Estate Announces New Designated Broker In San Diego**

*July 22, 2015*

July 22, 2015 - PRESSADVANTAGE -

TCT Real Estate, a market leader in residential real estate, just announced today that long time San Diego real estate broker, Dan Sullivan, will be taking over their San Diego operation and will become the Designated Officer for the company. Dan has been a licensed broker since 2003 and will take over the Designated Broker position in the state of California. "I have been licensed since 1998, and I'm looking forward to working with the company and helping them expand their presence in San Diego County," says Dan Sullivan. TCT Real Estate has not only been successful in helping home buyers navigate the rapidly moving San Diego housing market, but has brought a new level of marketing, service and savings to home sellers in this area.

"One of the main reasons I chose to work with TCT Real Estate is their robust marketing and technology platform for seller and agents. It really provides a level of marketing that most brokerages are not bringing to their clients," says Dan. The company provides a host of tools for both home buyers, and home owners looking at selling a home in Carlsbad or San Diego; providing those clients an edge in the fast moving housing market. "Having an edge in the competitive housing market is important, whether the market is weighted towards sellers, or if buyers are in control. Being able to differentiate your listing is key to success,"

says Dan.

TCT Real Estate is continuing their expansion in the Southern California market, and Dan Sullivan will be working on the development of the company in Greater San Diego. His initial focus will be in the north county areas of Oceanside, Carlsbad, La Costa and Encinitas. In addition, Dan will be working on growing the agent base by recruiting and training local Realtors wanting to grow their business in the San Diego market. TCT Real Estate San Diego is focused on superior marketing and service, and Dan will continue to deliver on these client focused metrics.
