

NaturallyNatalie.myitworks.com Promotes New Skinny Wrap Services in Scottsdale, AZ

July 22, 2015

July 22, 2015 - PRESSADVANTAGE -

Naturallynatalie.myitworks.com is promoting new Skinny Wrap products through her website to help local Scottsdale, AZ residents feel better about their bodies. While Naturally Natalie offers numerous It Works products she is most pleased about the success stories she has seen and heard from users of the Skinny Wrap.

Knowing the market is flooded with unproven body contour wraps Naturally Natalie is excited to be offering an effective, naturally based, body contouring formula that is both paraben and mess free. Natalie, the distributor of the It Works Skinny Wraps, embraces the same all natural lifestyle so popular in Scottsdale, AZ so she knows firsthand she has a great product for her local clientele. By many opinions this product delivers the ultimate tightening, toning, and firming results for many areas of the body in as little as 45 minutes, making it the perfect option for the active Scottsdale lifestyle.

"Health and wellness are important to Scottsdale residents and the surrounding Phoenix valley," says Natalie.

"Looking good and feeling good spreads confidence to all areas of life. And sure, I offer my products nationally online, but there's nothing like having local clients you can experience the benefits with in person."

There is a reason why "that crazy wrap thing" has growing national popularity and why Naturally Natalie is a committed distributor. It Works, the producer of the Ultimate Body Applicator Body Contouring Wrap is ranked by Direct Selling News magazine on its North American 50 list. Why would the Skinny Wrap help It Works become a leader in direct selling? It's simple, consumers like products that work, and the Skinny Wraps have many devoted users, so the products sell, and both It Works and their clients benefit.

According to Sandy, one of Natalie's many local clients:

"I'm in my early 60s, but I'm young at heart and I still care quite a bit about how I look, so I have had multiple

liposuction procedures over the past few years on several areas of my body. My only trouble spot left was my arms and I was planning on having those done, too. That all changed when I went to a wrap party and had my arms wrapped. I could not believe the difference - and in only 45 minutes! I realized I no longer needed liposuction. Instead of paying \$1,700 for lipo, I became a loyal customer and now get lipo-like results that last for months for only \$15 a wrap!?

Based on customer reviews like that and the increasing popularity of products designed to help people live healthier, more natural lives, Naturally Natalie's products are sure to maintain their benefits and popularity.

?I don?t just want to be an online distributor of products. I want to have local clients that I can form relationships with and work with to help them feel better not just about their bodies, but about themselves overall. The Skinny Wrap is a great product to start with because the results are obvious. However, it?s really just a starting point. I have so many great products I can offer them to feel and look good that I hope to help them for life.? says Natalie.

Without a doubt Naturally Natalie as a distributor of It Works products is a welcomed supplier of all natural health, wellness and beauty products to the increasing population of consumers making healthy decisions.

So if you are in the Phoenix area and you are looking for a natural healthy way to lose weight, feel free to contact Naturally Natalie using the details provided below for a free consultation.
