

Pigment Relocates Paint Shop For Charlottesville Cabinet Repainting Services

July 22, 2019

July 22, 2019 -
Pigment, a company based in Charlotteville, Virginia, has announced that they have moved their paint shop to a new location. More about the location can be gleaned from their Google Maps page at https://www.google.com/maps?cid=6882413286904275772. The company is a provider of cabinet repainting and refinishing services in Charlottesville and surrounding areas. They have recently moved to 1144 E. Market St, Suite #2, Charlottesville, Virginia.

Christy Baker, who is Creative Director and Lead Designer at Pigment, says, ?We have recently moved to a bigger and better location. We are a provider of cabinet repainting and refinishing services for homes in Charlottesville and neighboring areas. We specialize in re-fabbed furnishings with an upcycled-modern aesthetic. Collectively we have decades of experience in custom paint finishes including: murals, graphics, ?antique? glazes, faux, and more. Plan a visit to come check out our latest and greatest pieces we have available for purchase or head on over to our online shop to see some of our featured items.?

Those who have a project in mind can visit Pigment to discuss it with their artists or Christy Baker, who provides individualized color consultation by the hour, whether in the client?s home or in the shop. The staff

at Pigment are also ready to assist clients in choosing anything from one color and finish for a particular furniture, to an entire home, both inside and outside. They also provide clear, water-based lacquer top coats in satin, gloss, or matte. They are also able to customize and re-fab mirrors, side tables, hairs, frames, dining tables, coffee tables, nightstands, buffets, sideboards, dressers, settees, desks, entertainment units, hutches, china cabinets, wardrobes, boxes, planters, stands, bed frames, patio sets, couch legs, lamps, stools, and more.

Meanwhile, Pigment customer reviews have been mostly positive as can be seen at https://neareview.com/virginia/pigment-color-188721. For instance, Nicole gave them five stars and said, ?Christy is absolutely amazing! We have the most beautiful mural in our home thanks to her! She is also professional, timely and a pleasure to work with!?

With regards to color consultations provided at Pigment, the color consultant makes use of highly developed skills to examine the complex effects of color and come up with color solutions that comply with the client?s goals. Taken into account are the current trends, color psychology, and color design theories in order to create an ideal solution that complies with the client?s needs and requirements.

Pigments also offers advice on the care and maintenance of newly painted cabinets and furniture. These include dusting the furniture piece at least once a week; not using any abrasive cleaners; not using glass cleaning compounds and hard instruments; using a slightly damp cotton cloth for wiping away stubborn dust, taking care not to put too much force because dust is also an abrasive; ensuring thorough dusting to help keep the painted furniture clean; not using any solvent-based cleaning solution; and dusting of uneven areas with a clean, natural bristle paint or artist?s brush.

Pigment also offers some tips on taking care of newly painted furniture. These include regularly dusting the furniture piece to maintain its luster; not leaving water spots on the surface because they could leave permanent marks after they have dried; not putting hot items, such as coffee mugs or irons, on the furniture; and wiping up spills and the condensation from cold drink glasses immediately as these can make transparent coatings white or milky.

And for maintenance of painted furniture, Pigment offers services for touch up of the paint. They also advise property owners to make sure that each piece of furniture is used only for its designed purpose; to avoid too much waxing as the wax is not readily removed and it will not degrade chemically.

The team members at Pigment can be depended on because they have a total combined experience of several decades in custom paint finishes, including graphics, faux, murals, ?antique? glazes, and more.

Those who want to learn more about Pigment color, design & furniture painting services can visit their website or contact them by telephone or via email. Their office hours are from 8:00 am to 3:00 pm, from Monday to Friday.
