Mansfield Cosmetic Surgery Announces Frequent Receipt Of Five Star Cosmetic Surgeon Review

July 19, 2019

Mansfield, Texas - July 19, 2019 -
Mansfield Cosmetic Surgery, based in Mansfield, Texas, has announced that they have been frequently receiving five star cosmetic surgeon reviews on Google. Under the directorship of Dr. Michael L. Thornton, the cosmetic surgery center offers a range of procedures in breast cosmetic surgery, facial plastic surgery, body and buttock contouring, male cosmetic surgery, SculpSure® non-invasive fat reduction, and non-surgical aesthetics from their medical spa.

One such five star review was provided by Kimberly M., who said, ?I must say I am beyond impressed with how much knowledge doctor Thornton has and his staff. This is my 1st time ever undergoing cosmetic surgery & I am so excited beyond happy I picked him as my surgeon. I would definitely recommend him to everyone who is thinking about undergoing a body make over. At the end of the day we always trust our gut and he is the way to go! Thank you Doctor Thornton and everyone in your office for the great experience!?

Dori B. also gave the cosmetic surgery center a rating of five stars and said, ?Six months ago and six days after my face-lift surgery, I wrote about how pleased I was with Dr. Thornton's expertise, his personalized,

caring manner and friendly staff. Now, I'm writing to inform you that this continued during my six month healing process. Dr. Thornton saw me on a regular basis and his attentive staff always welcomed me with smiles. All of the follow-up care was at no additional cost. If you're looking for a plastic surgeon, I highly recommend Mansfield Cosmetic Surgery.?

It should also be noted that Mansfield Cosmetic Surgery has an A+ BBB rating. Meanwhile, their cosmetic surgery procedures include breast cosmetic surgery, facial plastic surgery, male cosmetic surgery, and body contouring surgery. Popular procedures include the mommy makeover, Brazilian butt lift, SculpSure® non-invasive fat reduction, breast lift, breast augmentation, face and neck lift, VASER liposculpting, tummy tuck, male gynecomastia surgery, and after weight loss skin surgery.

There are also a number of non-surgical procedures that are available from their medical spa. These include Botox® cosmetic, Xeomin® aesthetic, Radiesse®, Juvederm® and dermal fillers, SculpSure® fat reduction, PicoSure® Focus Skin, PicoSure® laser tattoo removal, PRP hair restoration, Kybella®, CO2 laser skin resurfacing, and ThermiVa® vaginal restoration.

SculpSure® is the world?s first FDA-approved transcutaneous non-invasive laser device for providing permanent fat reduction and non-surgical body contouring. This laser device can permanently destroy up to 25 percent of subcutaneous fact after just one 25-minute treatment session.

The Brazilian butt lift or fat transfer buttock augmentation is composed of three steps. The first step is to remove some of the fat from the abdomen, flanks and back of the patient, resulting into a narrowed waistline. The second step is the cleaning and processing of the live fat cells. And the third and final step is to transfer the live fat cells into the buttock, artistically placing them within the superficial layers of tissue and above the buttock muscle.

The breast lift or mastopexy is designed to reposition sagging breasts that resulted from breast-feeding, pregnancy, or weight loss. The breast lift is often requested in combination with breast augmentation to be able to achieve the best effect in just a single operation.

Mansfield Cosmetic Surgery was founded by 2008, with Dr. Michael L. Thornton as surgical director. Dr. Thornton is a double board certified and fellowship-trained Cosmetic Surgeon and Diplomate of the American Board of Cosmetic Surgery. With their office located in Mansfield, they are able to serve clients from Mansfield, Midlothian, Arlington, Fort Worth, Burleson, Dallas, and the neighboring cities of North Central Texas.

Dr. Thornton has this to say about their office, ?Our 3500 sq. ft. cosmetic surgery center and medical spa is constructed on the gorgeous Mediterranean-style executive office property of the Tuscan on Walnut Creek,

located in Mansfield. Our surgical office features a large and spacious foyer accented in Tuscan grandeur, three private examination rooms, our medical spa facility, and our private operating room.?

Those who would like to learn more about breast lift surgery and the other procedures available at Mansfield Cosmetic Surgery can visit their website or contact them by phone or by email.
