

Miller Nissan Marianna FL Gives Away New Nissan Altima To Celebrate One Year Anniversary

August 06, 2019

August 06, 2019 - PRESSADVANTAGE -

Marianna, FL based Miller & Miller Nissan gave away a brand new Nissan Altima in June, on their one year anniversary, to thank the community for supporting them over the past year. At the anniversary celebration, country music star Jeff Bates performed a selection of his hit songs. All those in attendance were pleased to see their local Nissan dealership give so much back to the community.

Miller & Miller has been providing excellent customer service since their inception, with multiple experts available on site to help each client choose the perfect car for them. The dealership was also able to deliver this service alongside the best Nissan prices on the market. All those who walk through the doors of a car dealership do so with their own set of specific requirements and personal preferences regarding the sort of vehicle they want and need. At Miller & Miller, the staff make it their job to match each client to the right car and make sure they drive away satisfied with their new vehicle.

Regarding their dedicated sales team, the dealership states, "Our sales department has one purpose: to exceed your expectations from test drive to delivery. Our professional sales team is committed to a no-pressure, high integrity approach to your ownership experience. Our goal is for you to feel that the vehicle

you drive away in is the perfect one for you. Our online inventory of new and pre-owned vehicles is updated daily. We invite you to contact us or stop by our showroom to experience all that we have to offer.?

The company further notes that all things eventually encounter issues of some sort as they are used and soon require service. When getting one?s car serviced, however, the Miller & Miller state that it is especially important to hire a professional?as working with a slightly less knowledgeable or skilled mechanic can be the difference between having one?s vehicle back on the road at 100% functionality and racking up thousands in bills hopping from one mechanic to another while never actually coming anywhere near getting one?s car back to the state it was in when first purchased.

The Marianna car dealer offers expert automotive service to their customers. With a state of the art facility at their disposal, Miller & Miller has access to some of the best and most advanced diagnostic and repair equipment on the market, along with some of the most skilled and knowledgeable technicians. The company retains access to the highest quality parts on the market and can make repairs to almost any vehicle using the very same parts it was built with. Clients who drive into Miller & Miller?s service department are guaranteed to receive efficient, quality vehicle care.

Many clients have visited Miller & Miller and left positive reviews praising the customer service they received there. Missy M., one of the dealership?s customers, is quoted saying, ?This was my first time going to Miller & Miller, and the customer service was so friendly and helpful. The parts department took the time and, without any attitude, asked me questions about the part I was looking for. They were so helpful and very educated about the replacement parts. The sales people were also very friendly and hospitable. I'm going to buy a car from them.?

Another 5-star review praises Miller & Miller?s service department saying, ?Brought my Chevy here because Hurricane Michael blew away Miller & Miller's Chevy service center. The tech discovered the source of the problem was an after-market add on, showed me what went wrong (something they won't work on), and they sent me on my way without charging me a nickel! I look forward to equal honest dealing when their Chevy service center reopens.?

Customers looking to buy a new car or get their old one serviced are encouraged to visit Miller Miller Nissan. With the company?s strong commitment to providing the best customer service and getting repairs done on time, and with regard for the highest standards of workmanship, they are guaranteed to produce some of the best work on the market.
