## **New Car Trash Can By LogicLux Receiving Five Star Reviews**

*July 24, 2015*

July 24, 2015 - PRESSADVANTAGE -

LogicLux in Raleigh, North Carolina, has recently launched a car trash can that has been gaining rave reviews on the Amazon marketplace. The LogicLux car trash can or bag is durable, leak proof, convenient, and offers a number of other benefits, as Amazon customers reiterate.

"I have four kids, so our minivan gets messy FAST. This trash bag is a great solution, because it's large enough to hold a lot of junk and it hangs from the seat back so it can't get lost under a seat. I love that it's leak-proof, so I don't have to worry if one of the kids puts a half-empty soda cup in there," says Tara C.

LogicLux spokesperson Troy Davis couldn't be happier with the reviews. He says, "We're ecstatic that everyone is finding the bag so useful. We designed it for high quality and that's just what everyone has been saying they love most about it."

The trash bag, which can be seen at <http://www.lorenztrroy.com/CarTrashBag> is more convenient than smaller bags simply because it holds more, but it offers a number of other features as well. It is easy to install, and can double as a bedside bag if and when needed.

It is designed to be completely waterproof, so it makes no difference what users put it in, and many like that it is adjustable to fit any vehicle on the road. It attaches to any headrest, is easy to clean, and while it's small enough to fit in any vehicle, customers claim it is large enough to handle even the messiest of messes. "It is the perfect trash bag for keeping your trash out of the floor. It has a liner that you can wash out and is very durable so it will last for a long time. It also has side pouches for extra storage," says Rhonda.

Those looking for more information about the new car trash can or bag or about LogicLux in general can click here. LogicLux provides a lifetime warranty. Those who may run into issues with durability can contact the company for a free replacement.
