

Sell Fast Fair Offer Announces New Local Strategy

July 24, 2019

July 24, 2019 -

Sell Fast Fair Offer, a Miami home-buying company, has decided to implement a new strategy in the areas of Miami, Miami Gardens and Opa Locka.

In order to better serve the neighborhoods from where the company receives the most contacts, the company has decided to implement a strategy to be closer to the people looking for its services. This is part of what the company is calling its "differentiation strategy."

When asked about the company's strategy, the response was "Without going into great detail, we simply need to show people how our company is different from all other Miami home buyers." Said the company's closing coordinator, "We know we're different because we care about people. However, we need to do a better job of delivering that message to people who are looking to sell their homes."

The company announced in a previous press release that Miami home price increases could be easing. However, this does not necessarily translate to someone whose property is in distress or anyone who has an unwanted property in the Miami area.

On a day-to-day basis, what this means is that staff will be in and around the neighborhoods it serves. According to Dee Garcia, closing coordinator at the Miami home buying company, "We need to be closer to the people who need our services. What sets our company apart from others in the industry is that we go out of our way to try to help the people who contact us."

Ms. Garcia continued, "The key is for people to understand that we will be with them every step of the way. We want them to get to know us and to build familiarity and trust."

Selling an unwanted property is not an easy task. There are many steps that must be taken to get the most value out of the property. If the seller doesn't know steps and risks, then profits might not be maximized.

This is where Sell Fast Fair Offer staff steps in. They lend their expertise in the local area. Ms. Garcia added, "We're familiar with the neighborhoods and properties. Now we want to become familiar with the people involved." She added, "sometimes there's tragedy involved when a property is inherited. We don't want to become another burden when a person is grieving. We want to help ease the burden."

The new local strategy is just one of the many plans the company has for growth for the 2019 calendar year and beyond. Sell Fast Fair Offer's plans are to become the area's top home buying company; the place to turn to when someone is looking to get rid of an unwanted or distressed property.
