

Bright Image Pressure Washing Launches in Greater Charlotte

July 23, 2015

July 23, 2015 - PRESSADVANTAGE -

CHARLOTTE, NC ? Bright Image Pressure Washing launched its business today, offering property owners high-pressure water services in the greater Charlotte area. As many homeowners know, one of the first things to be cut from family budgets when the economy went into recession in 2007 was professional home services like gardening, house painting and pressure washing. Now, in a sign of recovery, this new pressure washing company is launching in Waxhaw, NC servicing Charlotte, Weddington, Matthews, Stallings and Waxhaw.

?We?re confident that with the economic recovery, people are ready to start taking proper care of their homes again,? says Tom Genovas, the owner of Bright Image Pressure Washing. ?Our services are designed to do just that.?

Bright Image Pressure Washing can help with pesky mold on the patio and home, as well as deep dirt or dried Carolina red clay. Whatever the job requires, the Bright Image Crew promises to handle it with courtesy and quality.

The new company boasts the latest in modern high-pressure water cleaning equipment for property and home washing services. From decks to siding, windows to roofs, and driveways to fences, the crews of Bright Image Pressure Washing know the best methods to clean each surface and personally guarantee customer satisfaction with all the work they do.

Interested North Carolina homeowners can call or book online to request a free quote and get their home and property sparkling clean in no time.
