

## **Customers Can Now Rent The New Samsung Galaxy A50 In Browns Plains, QLD**

*July 31, 2019*

July 31, 2019 - PRESSADVANTAGE -

Easy Payment Options, based in Molendinar, Queensland, is excited to announce that their customers in the Browns Plains community can now rent the new Samsung Galaxy A50. The company offers rental services for a wide range of electronics that are designed to add functionality and convenience to their users' daily lives. More information regarding their phone rental service can be found here: <http://urlnk.net/rent-samsungA50-browns-plains-qld>.

Richard van der Velde, CEO of Easy Payment Options, asserts, "This phone model is one of the best options available for its price. We are very enthusiastic about being able to offer it as a rental for our customers since its rich gallery of features is sure to find use in virtually anyone's hands. Hopefully, our customers share our excitement and will consider the Samsung Galaxy A50 when they entertain the option of renting a mobile phone." As Easy Payment Options remarks, the Samsung Galaxy A50 represents one of the best value-for-money options on the market, with top-notch technology that rivals those of flagship phones.

The phone passes all of the requirements of a medium-budget device with the highest marks, excelling in multiple areas such as its camera quality and storage capacity. Additionally, the phone is equipped with a

4000mAH battery, which is easily able to power the device through the average day despite its high energy-consuming HD screen. The phone does not fall short in security either, as it is equipped with high-end facial recognition technology and a cutting edge on-screen fingerprint sensor. It also comes with one of the latest Android Operating Systems, ensuring that its user's data is protected by the latest security measures.

Furthermore, Easy Payment Options states they are determined to ease the rental process in order to allow their customers to acquire the device they need within the span of a few days. This is one of the biggest benefits that they offer as it allows their clients to quickly get a replacement for their phones without committing to a large financial investment. They assert that most of their customers prefer to rent a device, rather than buying one, due to the price discrepancies involved. Additionally, due to the ever-changing and evolving nature of electronic devices, even the newest devices become obsolete after a few years. Since many cannot afford to change their devices so often, renting a device is often considered a much better alternative to buying it outright.

Van der Velde states, "We make it as easy as possible for our clients to acquire a new device. From our different payment options to our accessible rates and customizable lease plans, we allow our customers to choose whatever device fits their needs best, for the timeframe that they deem most convenient. Once the term is complete, they can easily choose to purchase the phone from us, switch to a new one, or extend their leasing contract. There is a reason why we are considered one of the best rental companies for electronic devices in Australia, and our customers understand this the moment they come to us.

"The company offers different payment options for their rental services, designed to accommodate their clients' various needs and circumstances. Their most famous payment method is through Direct Debit, which allows payments to be made directly from the customer's bank account. They claim that this is the most suitable option for clients who can easily manage their cash flow and payments, although it may not be the best for those who struggle with this aspect or have busy schedules that may lead to them missing payment dates. For these types of customers, Easy Payment Options offers Centrepay, which is a voluntary bill-paying service that is freely available to Centrelink customers. It can be used to arrange regular deductions from the customer's Centrelink payment, allowing them to set up the weekly deductions for the duration of the contract, without necessitating further intervention.

The company's website includes more information regarding the different mobile devices available for rental, as well as other useful electronics. The website can be found here: <http://urlnk.net/srent-samsungA50-browns-plains-qld>.
