

Semper Polanco Publishes New Article about Newly Constructed Luxury Condos: Departamentos En Preventa Polanco

July 31, 2019

July 31, 2019 - PRESSADVANTAGE -

Ciudad de México, México based Semper Polanco recently published a new article titled "Departamentos en preventa Polanco", where they invite community residents to view one of the most attractive projects from renowned architects Alejandro Bernardi and Beatriz Peschard. The company asserts that the architectural team has made every effort to convey the luxury and commodity of the designs that define the prestigious firm.

Other companies have complimented the design and architectural choices behind the luxury condos that Semper Polanco offers, stating they combine all of the key factors which define an outstanding structure. Josh Stein, the owner of Vive Polanco, states, "Semper Polanco is truly the best new development in Polanco. It's located in the very best part of the city, just a few blocks from the heart of Polanquito, and it has unobstructed views on three sides?not to mention only one apartment per floor and the highest quality in construction."

Semper Polanco says one of the key factors which define these new apartments is the location where they

have been built. They claim that, while the structure and design of the apartments can be adapted to an extent, their location is a critical aspect which should be given heavy consideration. The new Semper Polanco luxury condo apartments are surrounded by recreational spaces, excellent schools, good hospitals, and luxury department stores. In other words, they are situated in a central location within the city, which is perfect to fit the needs of any kind of buyer.

The company explains that their luxury condo apartments will be separated into three spaces, catered towards the needs of a variety of buyers. Their most ample space is what they call the "Garden House," a condo apartment on the ground floor that has all of the conveniences of a regular house yet does not compromise on any luxuries. They also offer more modest options with their condo apartments from the second to the eleventh floor, comparable features along with a view that gets increasingly better the further up the apartment is.

Topping it all off is Semper Polanco's penthouse, which was built to contain a space as luxurious and extravagant as it is beautiful. Residents of this condo apartment will be able to enjoy the beautiful views of the city from their private terrace, giving them a unique opportunity to experience the city from a new angle.

Despite the various obstacles that cropped up during development, the company states they were able to overcome every challenge without compromising either the aesthetic value or luxurious benefits of the property. The apartments will feature warm and luxurious materials that will give the space a homely atmosphere, making it a simple matter for a family to swiftly become accustomed to their new surroundings.

Additionally, the excellent natural illumination which the architects have prioritized in the design of each space gives every room a cozy feeling, making it an ideal place to enjoy reading sessions or relax alongside a view of the city. The condo apartments will oversee a range of historic locations and places of interest, such as the Masaryk Avenue and the Paseo de la Reforma.

When it comes to security, the company asserts they ensure the safety of residents throughout the property. Aside from a private elevator that offers each resident the convenience of direct access to their home, they will have the benefit of a 24-hour surveillance service. Each condo apartment will have three parking spaces designated to them, along with two other spaces for visits and other special occasions.

The company asserts that the apartments will be finished and ready to be moved in by the end of November 2019, featuring all of the various spaces and luxuries which are promised on the company's website.

Interested parties may contact Josh Stein of Semper Polanco to learn more about the luxury condo apartments' features and their availability. They may also visit the company's website and search for the "Departamentos Polanco Preventa" section, where further information can be found.
