

# Remove A Pool: Now Offering Pool Removal Services In Dallas

*August 01, 2019*

August 01, 2019 - PRESSADVANTAGE -

Remove A Pool is pleased to invite members of the community to avail themselves of the company's pool removal services in the Dallas, Fort Worth metro area. The company is eager to help residents remove what was once seen as a valuable asset but may now only serve as a financial drain. They have been helping homeowners, realtors, and property investors across the US for more than 25 years, a period in which they developed the safest, most efficient pool removal methods in the business.

The company asserts that, while swimming pools were once regarded as a great investment opportunity that increased a property's value, the passage of time has proven that the costs of maintenance outweigh the benefits of having a private pool. This is especially true in some areas of the country where outdoor pools can only be used a few months out of the year, though maintenance and care is necessary at all times.

S. Gordon, a representative of Remove A Pool, asserts, "Every year, the number of people seeking ways to address issues with their pool increases. Therefore, we ensure that they always have the option of calling on us to remove their pool, and its associated worries, in its entirety. Given our experience in the field, we're able to carry out this task in a safe and timely manner."

Since a project of this magnitude is easily accomplished, finding a reliable company that can carefully demolish and dispose of the pool is of the utmost importance. Remove A Pool affirms that they rely on a team of individuals who are fully trained in workplace safety practices, on top of being licensed and certified in the state of Texas. This allows them to assess each project site, evaluate potential hazards, and develop a plan to proceed with the removal.

The services provided by Remove A Pool Of Dallas are not limited to pool demolition, as they are able to oversee and carry out every aspect of a pool's removal. This includes disconnection, demolition, and safe disposal of the debris, each aspect of which is handled professionally in accordance with state laws. Through each stage of the removal, the company makes use of the most up to date tools and equipment available for these kinds of jobs, ensuring the best results possible.

"We work hard to protect your home, yard, and neighboring properties against damage while removing your pool," states Gordon, claiming that they have earned their highly positive reputation as a result of their hard work over the years. "Our extensive experience and knowledge allows us to guarantee the best results possible, without compromising the safety of the parties involved. Dallas Fort Worth residents can now rest at ease and leave the complicated pool removal process to us."

Through their website, Remove a Pool proudly showcases some of their most recent client testimonials, which speak of how the company was able to help numerous families across Texas remove their unwanted pool. Richard Chen, a resident of Dallas who hired the company shortly after their arrival in the area, says, "It is a chore to buy a house these days, especially one with a swimming pool that needs to go. I called a bunch of companies, and the only person that got back to me was Don from Remove A Pool. He promptly cleared any doubts I had and reassured me that they would be able to produce an aesthetically pleasing result, which is what I needed since I did not want an ugly backyard accompanying my new house. I spent two afternoons at the new house observing the crew as they worked endlessly from practically sunrise to sunset. We loved how the crew saved a family of frogs that were stuck at the deep end of the pool. The crew planted new grass that looks great. I really recommend these guys! They are a great team to work with and to have easy communication with."

The company's website includes more information regarding the Dallas Texas swimming pool removal services offered by Remove A Pool. The website also includes a contact form one can complete in order to request a free estimate. Furthermore, interested parties may also contact S. Gordon of Remove A Pool to follow up on any inquiries.
